

ALT -FUEL PREPLANNING

Activity Sheet

Purpose: To recognize key components of an alternative vehicle.

Objective:

1. Identify the vehicles fuel/energy propulsion system.
2. Identify potential hazards and how to effectively mitigate them.
3. Recommend emergency response considerations.

Instructions: On the diagram provided below, record the alternative fuel/energy system (fuel type/tanks/cylinders, battery banks, cabling/high voltage wiring/ pressurized fuel lines etc.) and other areas of consideration for your own emergency response to this vehicle type.
