CERTIFIED FIRE INSPECTOR I

Capstone Task Book

Capstone Task Book

The State Fire Training Capstone program is a "performance based" system. It starts with a Certification Task Book of qualifying individual performance required for a Fire Inspector I.

The Fire Inspector I Capstone Task Book contains the "approved standards" in the form of tasks, which have been established by State Fire Training and support the 2009 NFPA 1031 Standard for Fire Inspector Professional Qualifications.

The Capstone Task Book is designed with a specific focus on a particular certification track, and contains a refined set of skills and knowledge that are necessary to be successful in that position. As a result, each Task Book includes a *presumption* that the candidate has the requisite knowledge of the certification to the task book being initiated. For example, the candidate who initiates a Fire Inspector II Capstone Task Book must have the knowledge, skill, and ability contained in the Fire Inspector I Capstone Task Book.

What Is a Capstone Task Book?

The Fire Inspector I Capstone Task Book serves as a guide and record of what needs to be completed for certification.

Candidate's Responsibilities

- Reviewing and understanding all certification requirements in the task book.
- Satisfactorily completing all tasks.
- Ensuring the task book is accurately recorded and maintained.
- Keeping a copy of the completed task book with other personal or career records.

Fire Chief's (Authorized Representative's) Responsibilities

- Reviewing and understanding all certification requirements in the task book.
- Ensuring the correct use of the task book.
- Verifying applicable components in Sections 2 and 3 before signing the task book.

How Is A Task Book Started?

The task book can be downloaded from State Fire Training's website. The candidate must complete all sections of the task book in the following order:

- Section 1 and 2 must be completed first.
- Section 3 not applicable for this certification
- Section 4.
- Section 5 is the final step

CERTIFIED FIRE INSPECTOR I

Capstone Task Book

Time Frame for Completing the Task Book

The Fire Inspector I Capstone Task Book must be completed within 3 years of completing the final required course of instruction. A change in certification requirements taking place while a candidate's task book is open may necessitate initiating a new task book.

If the Fire Inspector I Capstone Task Book is not completed within three (3) years of completing the last required course of instruction, the task book is no longer valid. A new Fire Inspector I Capstone Task Book must be initiated and all current certification requirements will apply.
