WELCOME

As an organization of fire service professionals, State Fire Training (SFT) understands the need for standardized yet contemporary rules for the programs it manages. This document is intended to provide that standardization.

Many changes have occurred in SFT’s operational procedures since it issued the first CFSTES Policies and Procedures Manual in 1985. In many instances, these changes have necessitated the revision of existing requirements and the development of new ones.

This was particularly true of this 2015 edition of the State Fire Training Procedures Manual, which incorporated a number of changes implemented through a three-year mission-alignment process, including the pursuit of national certification, a streamlined curriculum development process, simplification of many internal procedures, and a move toward more accessible content on digital platforms.

As is the case with any document published by this office, SFT has attempted to include all of the information that you, the user, might find useful. If you do not find the information you need, or have a question regarding the application of a procedure, please contact SFT.

1: State Fire Training

1.1: ORGANIZATION AND AUTHORITY

1.1.1: OVERVIEW

A. The California Department of Forestry and Fire Protection (CAL FIRE) is the state agency that serves and safeguards the people and protects the property and resources of California.

B. The Office of the State Fire Marshal (OSFM) is the CAL FIRE program that protects life and property through the development and application of fire prevention, engineering, training and education, and enforcement.

C. State Fire Training (SFT) is the OSFM division of OSFM that establishes, develops, and delivers standardized training and education for the California fire service.

1.1.2: OFFICE OF THE STATE FIRE MARSHAL

1.1.2.1: Mission

A. The mission of OSFM is to protect life and property through the development and application of fire protection engineering, enforcement, and education. As part of this mission, OSFM establishes a fire-safe environment for the people of California, which serves as a foundation for local agencies to build on as they strive to meet their specific needs.

B. OSFM is able to achieve its public fire-safety objectives because legally organized local fire authorities generally carry out the enforcement of minimum fire safety standards. This delegation of enforcement responsibilities minimizes duplication and overlapping efforts while preserving local autonomy.

1.1.2.2: Function

A. OSFM functions as an entity within CAL FIRE and carries out its fire prevention mission in three basic ways:
   1. Regulating buildings in which people live, congregate, or are confined
2. Controlling substances and products which may, when misused or in and of themselves, cause injury, death, or destruction by fire
3. Providing training and education in fire-protection methods and responsibilities

B. OSFM is also responsible for the State Board of Fire Services (SBFS), which plays a major role in providing a state-level focus for resolving fire prevention and fire control issues affecting the entire fire service. SBFS includes representation from fire service labor, fire chiefs, fire districts, volunteer firefighters, city and county governments, CAL FIRE, the Governor’s Office of Emergency Services (Cal OES), and the insurance industry. The State Fire Marshal serves as the SBFS chair.

C. SBFS serves in an advisory capacity in multiple areas, including developing technical and professional performance standards for training fire service personnel, accrediting curriculum, and establishing policy for the California fire service certification system.

D. OSFM has also established several other advisory committees comprised of SFT staff, fire service representatives, outside agencies, and industry professionals to aid in carrying out its regulations and duties.

1.1.2.3: Authority

A. The California Health and Safety Code, authorizes OSFM activities under Division 12, Part 2, Chapter 1 – State Fire Marshal.

1.1.3: STATE FIRE TRAINING

1.1.3.1: Background

A. In 1978, the California Department of Education transferred responsibility for the California Fire Service Training and Education Program to OSFM. Since that time, OSFM has established the California Fire Services Training and Education System (CFSTES) and the Fire Service Training and Education Program (FSTEP) within the State Fire Training (SFT) Division. SFT coordinates the statewide delivery system in collaboration with fire agencies, community colleges, and instructors.

B. SFT is a self-funded program, paid for by participants’ fees.

C. Through coursework and practical training exercises, every California fire fighter is exposed to training standards approved by OSFM. 7: California Fire Service Training and Education System (CFSTES)

7.1: CALIFORNIA FIRE SERVICE TRAINING AND EDUCATION SYSTEM (CFSTES)

7.1.1: OVERVIEW

A. The Office of the State Fire Marshal (OSFM) is responsible for the California Fire Service Training and Education System (CFSTES).

B. CFSTES coordinates the various elements that contribute to the development, delivery, and administration of standardized in-service and specialty training for the California fire service.

C. Through the years, CFSTES has become synonymous with certification. State Fire Training (SFT) uses the term “certification” to describe the process of meeting approved professional standards.

D. The objective of CFSTES is to provide a single statewide focus for fire service training in California. General functions of the system include:
   1. Implementing OSFM standards and requirements
   2. Overseeing curriculum development
   3. Approving courses that lead to job function certification
   4. Approving standardized training programs for local and regional delivery
   5. Administering the job function certification system
   6. Publishing certification training standards, course plans, certification task books, and related support materials
7. Maintaining relationships with individuals, groups, organizations, and agencies involved in training

E. The Chief of State Fire Training and SFT staff manage CFSTES, collaborating with advisory committees and volunteer task forces of working professionals in the field (referred to as cadres) to develop and update certification training standards, course plans, certification task books, and other documents that support the system.

F. The Statewide Training and Education Advisory Committee (STEAC) reviews all substantive changes and additions to CFSTES standards, rules, procedures, curriculum development documents, and job function certifications before they are presented to the State Board of Fire Services (SBFS) and OSFM for approval and adoption.

G. CFSTES is a self-funded program supported by participant registration and certification fees.

7.1.2: PURPOSE AND GOALS

A. The purpose and goals of CFSTES are to:
   1. Set minimum performance standards for job function certifications issued by SFT

   3. Establish a standard curriculum for California fire service training programs
   4. Provide the means for maintaining a record of training accomplishments

8: Fire Service Training and Education Program (FSTEP)

8.1: FIRE SERVICE TRAINING AND EDUCATION PROGRAM (FSTEP)

8.1.1: OVERVIEW

A. The Office of the State Fire Marshal (OSFM), per California Health and Safety Code Sections 13155–13159.2, is responsible for California's Fire Service Training and Education Program (FSTEP).

B. FSTEP makes fire service training and education programs available on a voluntary basis to fire departments that rely extensively on volunteers.

C. FSTEP provides both volunteer and career Fire Fighters with hands-on training in fire fighting, extrication, rescue, emergency vehicle operations, pump operations, and the Incident Command System (ICS).

D. State Fire Training (SFT) also uses the term FSTEP to identify programs that do not lead to job function certification.

E. The Chief of State Fire Training and SFT staff manage FSTEP, collaborating with advisory committees and volunteer task forces of working professionals in the field (referred to as cadres) to develop and update course plans and other documents.

F. The Statewide Training and Education Advisory Committee (STEAC) reviews all substantive changes and additions to FSTEP standards, rules, procedures, and curriculum development documents before they are presented to the State Board of Fire Services (SBFS) and OSFM for approval and adoption, if required.

G. FSTEP is a self-funded program supported by participant registration fees.
8.1.2: COURSE DELIVERY

A. SFT delivers FSTEP courses through Registered Instructors.

B. FSTEP Registered Instructors may enhance courses to meet an agency’s specific needs.

C. Upon successful completion of an FSTEP course, the Registered Instructor shall issue an OSFM certificate of completion to the student.
9: Equivalency and Reciprocity

9.1: COURSE EQUIVALENCY AND RECIPROCITY

9.1.1: OVERVIEW COURSE EQUIVALENCY AND RECIPROCITY

A. State Fire Training (SFT) recognizes courses offered by other agencies and institutions as equivalent or reciprocal to similar courses offered through SFT. There are two ways to pursue recognition for a non-SFT course already completed.
   1. To pursue equivalency for a course that SFT has already approved, see 9.1.2: Established Equivalency.
   2. If a course does not appear in Table 1: SFT - Equivalent Courses, SFT reviews the individual course using the Peer Assessment for Course Equivalency (PACE III) Committee. See 9.2: PACE III Process.

B. SFT does not offer equivalency or reciprocity for courses that are part of a retired certification.

9.1.2: ESTABLISHED EQUIVALENCY

9.1.1.1: Equivalency

A. When SFT determines that a non-SFT course is equivalent to a similar SFT course, a student who has completed the non-SFT course shall consider the following courses as equivalent to SFT courses. A student may obtain an SFT course completion certificate for the SFT course these courses without having to complete the a-SFT course.

B. The student is required to apply for equivalency and pay the SFT course fee. (See 9.1.3.1: Equivalency for Approved Courses.)

9.1.1.2: Reciprocity

A. When SFT determines that a non-SFT course is reciprocal to a similar SFT course, SFT shall accept the student’s non-SFT course completion certificate.
B. The student is not required to apply for equivalency or pay any fees.

C. SFT does not issue an SFT course certificate for a reciprocal course.

9.1.2: APPROVED COURSES

A. In Table 9.1.2: SFT Approved Courses (following), SFT has identified the following courses as either equivalent (E) or reciprocal (R).

A. SFT shall consider the following courses as equivalent to SFT courses. A student may obtain an SFT course completion certificate for these courses without having to complete a SFT course.

B. See Acronym Glossary for a complete list of provider acronyms.

9.23: CERTIFICATION EQUIVALENCE AND RECIPROCITY ALTERNATIVES

9.23.1: OVERVIEW

A. A fire agency, at its own discretion, may evaluate training received outside of California as equivalent for its own hiring purposes.
   1. This review is conducted at the local level, not by State Fire Training (SFT).
   2. Acceptance of an out-of-state certification by a local agency is not equivalent to an individual being certified by SFT for that job function.

B. At this time, SFT only accepts the job function certifications listed under 9.23.2: Job Functions as equivalent to a job function certification in California.

9.23.2: JOB FUNCTIONS

9.23.2.1: Fire Chief

A. The Office of the State Fire Marshal (OSFM) and the Center for Public Safety Excellence (CPSE) both administer professional recognition for Fire Chiefs. OSFM confers Fire Chief certification and CPSE confers Chief Fire Officer Designation (CFOD). Both agencies use very similar processes to evaluate and confer recognition. In 2011 the agencies entered into a memorandum of understanding to initiate reciprocity between the two programs.

B. A Fire Chief possessing a CFOD conferred by CPSE may apply for Fire Chief certification from SFT.

C. SFT shall not accept CFOD certificates issued by CPSE under other reciprocity agreements.

D. To apply for SFT Fire Chief certification, applicants should submit to SFT:
   1. The SFT Fee Schedule
   2. Application for Fire Chief Reciprocity with CPSE
   3. Nonrefundable application fee
   4. An organizational chart from their employing organization
   5. A copy of their CFOD certificate
   6. A verification letter from CPSE
   7. Resume

E. The rank or position requirements for Fire Chief certification listed under 7.54: Fire Chief apply.

F. SFT will assign an advocate to the applicant and conduct a Peer Assessment for Chief Executive (PACE IV) Committee review.

9.3.2.2: Fire Fighter I

A. A military fire fighter is eligible to become certified only after he or she serves in a qualifying military fire agency located in California.

B. Training received outside of California may, at the agency's discretion, be evaluated for equivalency and recorded on the Fire Fighter I Training Record.
   1. This review shall be conducted at the local level and not by SFT.
10: California Incident Command Certification System (CICCS)

10.1: CALIFORNIA INCIDENT COMMAND CERTIFICATION SYSTEM (CICCS)

10.1.1: CICCS PROGRAM

A. The Office of the State Fire Marshal (OSFM) created the California Incident Command Certification System (CICCS) in collaboration with The State Board of Fire Services (SBFS).

B. CICCS enhances California’s ability to field resources that are adequately trained and qualified for service through the emergency response system. It adequately prepares California’s fire fighters to respond to all incident types by clearly identifying certification criteria.

C. CICCS can be managed at the local, regional, and state level, and provides a road map for certifying individuals as well as recognizing individuals who have already completed equivalent training and are functioning at these levels.

10.1.2: CICCS CERTIFICATION

A. The CICCS was developed in response to the concerns of California’s fire service personnel, who identified the need for a system that enhanced the readiness and safety of emergency responders to multiagency incidents. CICCS is a decentralized program that provides certifications administered at local, regional, and state levels.

12.10: REGISTERED EVALUATOR CODE OF CONDUCT

Registered Evaluator Code of Conduct

As a Registered Lead Evaluator and/or Skills Evaluator for State Fire Training, I realize that consistent, quality testing and evaluation is a primary obligation to candidates and the departments/agencies they serve.

It is my job to administer examinations that will provide the candidates with a successful and rewarding experience, and I will work to ensure the success of each candidate. Furthermore, I agree to recuse myself from any assignment as an evaluator where I know that I will be unable to objectively evaluate one or more of the candidates.

I will refrain from making remarks or telling stories/jokes that may be considered offensive to others. I will be professional regarding socializing with candidates, and I will limit candidate contact outside of the examination process as not to put the evaluator-candidate relationship at risk. It is my responsibility to use good judgment in selecting clothing that projects a professional image, and that is appropriate for both evaluations and classroom activities.

I agree that I will never evaluate testing for a level of certification for which I am not personally certified or for which I do not possess a mastery of the subject.

If I have comments or complaints about other instructors, evaluators, candidates, and/or staff members, I will express them to State Fire Training, and not to other individuals or groups.

I expect safety rules to be observed by everyone—evaluators, instructors, visitors, as well as candidates.

If for any reason I am unable to serve as Lead Evaluator for the exam I have been assigned, I will contact State Fire Training as soon as possible, but in any case no less than 48 hours prior to the exam date.

As a Registered Lead Evaluator/Skills Evaluator, I agree to abide by all the policies and procedures stipulated by State Fire Training including but not limited to: conducting training, delivering certification exams, maintaining examination security, maintaining records and submitting reports. I further agree not to reproduce or release any certification examination materials.

I understand that to disregard any of State Fire Training’s policies and procedures would violate my agreement with State Fire Training and thereby cause me to be subject to disciplinary action.

This completed agreement must be submitted to State Fire Training with the Evaluator Application Form and other supporting documents.

I have read, understand, and agree to comply with, State Fire Training’s Registered Evaluator Code of Ethics/Conduct.
