

## ADDENDUM TO THE FINAL STATEMENT OF REASONS

Text of Regulations, Section 2021(b) paragraph labeled “Exception” amended to Section 2021(b)(1) and those sentences that are based on the proposed language in documents incorporated by reference.

The OSFM in Section 2021(b) “Exception” is renumbering to 2021(b)(1) then striking from the text of regulations because this section is unclear as to the standard by which the office is approving or disapproving the request for a 30-day extension and the basis for which the office is exercising that discretion.

The OSFM is also striking from the “documents incorporated by reference” as noted below, those sentences that are based upon the proposed “Exception” at Section 2021(b)(1):

1. INSTRUCTIONS FOR FORM PSD-101 (JULY 1, 2016), page 1, General Instructions, paragraph 4.
2. CALIFORNIA STATE FIRE MARSHAL ANNUAL INSPECTION PROCEDURES (JULY 1, 2016), page 1, Process: 1. Gather Operator Information, last sentence.

The OSFM will modify the unclear language and provide those modifications to the public during a 15-day public comment period.

Initial Statement of Reasons, clarifying the term “industry standards” as used.

The OSFM reference to the term “industry standards” as used in the Initial Statement of Reasons means the industry standards adopted as federal Law. (49 CFR, Part 195.)
