

California State Fire Marshal **CODE INTERPRETATION**

Date Issued	July 27, 2007	Interpretation	06-127
Topic	Communication Equipment		
Code Section(s)	2001 California Electrical Code Article 089-4 (d)		
Requested by	Sandy Sakamoto AT&T Services incorporated 1150 S. Olive St. Suite 2850 Los Angeles Ca., 90015		

Do the provisions of the current California Electrical Code Article 089-4(d) apply to installations of power equipment, such as dc converters, inverters and batteries, and technical support equipment such as computers, serving communications equipment under the exclusive control of a communications utility?

Yes, where the power equipment such as dc converters, inverters and batteries, and technical support equipment such as computers are installed for the sole purpose of supplying power to or serving the communication equipment located outdoors or in building spaces used exclusively for such installations.

Note: CEC, Article 089.4(d) exemption does not apply to the building electrical system, HVAC, generators and associated equipment.
