

## California State Fire Marshal Information Bulletin

June 1, 2009

### STATE FIRE MARSHAL'S FIRE ALARM CONTROL UNIT LISTINGS

In an effort to streamline the listing of fire alarm control panels and to provide an improved product to both the manufacturers and the end users, the Office of the State Fire Marshal has combined the High-Rise and non-High-Rise fire alarm control panel listings into one listing Category 7165-Fire Alarm Control Unit (Commercial).

All existing High-Rise listings have been converted to Category 7165 and will be posted on our Web site effective July 1, 2009.

[http://osfm.fire.ca.gov/licensinglistings/licensinglistings\\_bml.php](http://osfm.fire.ca.gov/licensinglistings/licensinglistings_bml.php)

For those High-Rise fire alarm panel listings which had a corresponding non-High-Rise listing, the two have been merged into one listing which is approved for both High-Rise and non High-Rise applications.

For information regarding this bulletin, please contact Deputy State Fire Marshal Francis Mateo, Building Materials Listing Program Coordinator at (916) 445-8396 or by email [francis.mateo@fire.ca.gov](mailto:francis.mateo@fire.ca.gov)
