OFFICE OF THE STATE FIRE MARSHAL

Get involved or be left out!

Who determines if your workplace is safe? Building and fire codes have a lot to say about it. And your vote does count.

The next generation of building and fire safety codes will be decided through online voting. The International Code Council's new cdpACCESS empowers you to vote on these codes, even if you can't attend the code meetings.

Here are **three simple steps** to be able to cast your vote:

1) Make sure your department is a member and signed up to vote, click here. And if your department is already a member, click here.
2) Update your department's **"designated voting representatives"** within the International Code Council process. This must be completed annually and maintains your voting eligibility.
3) Cast your votes on code change proposals, using the new remote voting process when cdpACCESS voting opens in May and October, 2015.

IMPORTANT: To be eligible, you must be an ICC voting member **before March 20, 2015**, for the upcoming code hearings on the **2018 Group A Codes**.

Group A Codes: IBC-E, IBC-FS, IBC-G, IEBC, IFGC, IMC, IPC, IPMC, IPSDC, IRC-M, IRC-P, ISPSC and IZC.

> **Group A Committee Action Hearings:** April 19-30, 2015, in Memphis, TN.
> Online voting will be approximately May 11-22.
>
> **Group A Final Public Comment Hearings:** September 30 – October 7, 2015, Long Beach, CA. Online voting will be approximately October 19-30.

Need more information? Email the **ICC Fire Service Membership Council Governing Committee Members** listed on the Fire Service Membership Council webpage. **Just click here!**
