

#### Pipeline division seeks local agency volunteers

The State Fire Marshal is currently looking to fill three local agency vacancies on the Pipeline Safety Advisory Committee (PSAC). The committee is comprised of eight members of whom two represent pipeline operators, three represent local agencies, one as a fire chief, and two public members. The purpose of the PSAC is to inform local agencies and every pipeline operator of changes in applicable laws and regulations affecting the operations of pipelines, and reviewing proposed hazardous liquid pipeline safety regulations adopted pursuant to Section 51011. The committee shall meet when requested by the State Fire Marshal, but not less than once a year. The members shall be paid expenses and one hundred dollars (\$100) per diem for each meeting.

If you represent a local agency and are interested in participating in issues relating to the transportation of hazardous liquid by pipeline in California, please contact Pipeline Safety Division Chief Bob Gorham at (562) 497-9102 or by email: [bob.gorham@fire.ca.gov](mailto:bob.gorham@fire.ca.gov) . Appointment terms are two years and typically the committee meets once or twice a year, usually in conjunction with an industry training seminar.
