INTRODUCTION

This document has been developed by the CAL FIRE – Office of the State Fire Marshal (OSFM), Fire Engineering Division staff to assist the California Fire Service in determining the fireworks items approved and classified by the Office of the California State Fire Marshal as "Safe and Sane". Our goal is to ensure information and processes are clearly understood for consistent application of laws/regulations; and safe distribution and sales of approved products. The detailed information regarding the Fireworks Program may be downloaded from:

http://osfm.fire.ca.gov/strucfireengineer/strucfireengineer_fireworks.php

Using this document:

This document is divided into sections specific to a particular fireworks company; with each company's list further divided into two sections. The first section is for those items that are exclusive to that company. The second section is for those items that are non-exclusive to that company and therefore may be sold by a number of companies. Occasionally, fireworks companies will contract to sell certain items that are distributed by another company. In those instances it is not necessary for the item to appear on both companies' list, but only on the list of the originating company.

A critical consideration is to confirm that the Office of the State Fire Marshal has classified each item that is contained in an assortment package. Companies were requested to provide the OSFM with a list of all classified items they distribute and sell, however they were not required to provide a list of those items that would be contained in specific "assortment" packages. It is appropriate for a company to substitute a different classified item when they deplete their stock of another particular classified item in an assortment package. The primary importance is to assure the item has been classified as an approved "Safe and Sane" item. An assortment may contain items that have been classified, but because of their small size it is impractical to place the seal of approval on them. Therefore, it is permissible to place such items in an assortment as long as the package bears the requisite California State Fire Marshal Safe and Sane Seal and the items are published on the approved list.

All items contained in these listings, with the exception of two categories, have been classified as "Safe and Sane"; bear the California State Fire Marshal Safe and Sane Seal; and may be sold from noon **June 28th through noon July 6th each year, *unless a local ordinance is adopted and is more restrictive.*** The two categories of items that have not been classified as "Safe and Sane" are **Party Poppers** and **Snap Caps**. These have their own separate seals of registration and classifications; may be sold year round; and do not require Retailers to have a State Fire Marshal retail sales license in order to sell these items.

What if you find an item that is not on a company's list?

- Step No.1: Check each of the other company listings to find if it is a firework item that is distributed by another company which this particular company may have contracted to distribute.
- Step No. 2: If the item does not appear on any company's list, call the contact person for the fireworks company who is the supplier for that particular stand (Please refer to enclosed list for contact names and phone numbers). Most fireworks companies maintain a 24-hour toll free number.
- Step No. 3: If you are unable to resolve your questions and/or are still concerned whether the item(s) have been classified by the Office of the State Fire Marshal as Safe and Sane, contact the OSFM Fire Engineering Division Fireworks Program staff at (916) 445-8373 for assistance. If it is determined the item has not been classified by the OSFM as Safe and Sane, it must be confiscated and removed from the stand.
