POTENTIAL AGENCY IMPACTS

Fire agencies utilizing the existing Chief Officer Certification or Curriculum as a requirement for their recruitment/promotion activities need to review the new Chief Fire Officer Curriculum and certification requirements to be sure that all agency training needs are being met. After review, Fire Agencies should update their job specifications and recruitment documentation to reflect these new courses and certification requirements. Fire agencies should also evaluate how these new courses and certification requirements will impact their existing labor agreements.

Accredited Regional Training Programs (ARTP), Accredited Local Academies (ALA), community colleges and all other local delivery venues need to review the curriculum and seek approval from their curriculum committee / program sponsor, as appropriate. ARTPs should review the new Chief Fire Officer curriculum and discuss potential impacts with their advisory committees.
