

Fire Prevention 1

Activity 4-6

Performing Interior Company Inspections

Activity 4-6

Format: Group

Timeframe: 1:00 (45 minutes activity / 15 minutes presentation)

Description

This activity provides students with an opportunity to evaluate an assigned occupancy in the immediate vicinity for a reasonable degree of fire and life safety.

Materials

- An inspection form for the student's department (or provided by instructor)
- *California Fire Inspector's Guide*
- Pen or pencil

Instructions

1. In small groups of 4-6 persons, conduct an inspection of the exterior of the classroom building
2. Record the group's findings on the fire inspection form
3. Be prepared to discuss your answers with the class

[Activity Content]

Instructor Notes

- Approved buildings can be substituted for the classroom building
- Students can bring their department's inspection form or you can provide one for them
- If buildings/occupancies are unavailable for inspection, use PowerPoint slides to compare compliant and non-compliant conditions. Organize the slides to correspond to conditions on the inspection form.
