Public Resources Code 4201-4204 directs the California Department of Forestry and Fire Protection (CAL FIRE) to map fire hazard within State Responsibility Areas (SRA) based on fuel loading, slope, fire weather, and other relevant factors present, including areas where winds have been identified by the department as a major cause of wildfire spread. These zones, referred to as Fire Hazard Severity Zones (FHSZ), classify a wildland zone as Moderate, High, or Very High fire hazard based on the average hazard across the area included in the zone.

Access PDF versions of the maps at https://osfm.fire.ca.gov/fhsz-maps. For more information, please visit the Frequently Asked Questions document for the 2023 Fire Hazard Severity Zones at https://osfm.fire.ca.gov/fhsz or scan the QR code at right. If you have further questions, please call 916-633-7655 or email FHSZcomments@fire.ca.gov.

Projection: NAD 83 California Teale Albers
Scale: 1:335,000 at 11" x 17"

State Responsibility Area
Fire Hazard Severity Zones
AMADOR COUNTY

Very High 168,197 Acres
High 103,474 Acres
Moderate 16,154 Acres

Federal Responsibility Area (FRA)
Local Responsibility Area (LRA)
