Date: February 20, 2020

To: State Board of Fire Services

From: Chris Fowler, Deputy State Fire Marshal III, Supervisor
      Mark Bisbee, Battalion Chief

SUBJECT/AGENDA ACTION ITEM:
State Certified Prescribed Fire Burn Boss Curriculum

Recommended Actions:
Information Only

Background Information:
This course was developed in response to Senate Bill 1260, Jackson (2018). The legislation directed State Fire Training (SFT) to develop curriculum and continuing education requirements to support a statewide burn boss training and certification program. The curriculum development cadre convened in August 2019, followed by a pilot course delivery and validation cadre in September 2019.

The curriculum aligns with the minimum federal standards for NWCG prescribed fire burn boss, as well as CALFIRE Prescribed Fire Incident Commander and CA-219 Wildland Ignition Operations-Firing Boss.

The cadre members are: Chris Fowler, SFT, Mark Bisbee, SFT, Laura Garwood, CSUS, Jeremy Bailey, The Nature Conservancy, Sasha Berleman, Firepoppy Consulting, Matt Brown, Santa Clara County Fire Department, Mark Brunton, CAL FIRE, Nick Bunch, US Forest Service, Jeffrey Crandall, US Forest Service, Phil Dye, Prometheus Fire Consulting, Tadashi Matsuoka, Yocha Dehe Fire Department, Seth Mitchell, US Forest Service, Brian Newman, CAL FIRE, Frank Padilla, Jr., California State Parks, Lenya Quinn-Davidson, University of California ANR Cooperative Extension,
Anthony Stornetta, Santa Barbara County Fire Department, Matt Thau, Livermore-Pleasanton Fire Department, Chris Waters, CAL FIRE.

Analysis/Summary of Issue:
1) The 40-hour course is designed for prescribed fire practitioners, private prescribed fire contractors, non-profit prescribed fire organizations, and landowners with a special interest in fire ecology and range improvement.

The Course Plan includes the following Learning Objectives:

- Fire history and prescribed fire laws
- Fire behavior concepts relating to prescribed fire
- Developing a burn plan
- Describing and demonstrating the approval process
- Implementing a prescribed-fire operation

PACE VI
The PACE VI Committee shall review an equivalency request for the course prerequisites for the State-Certified Prescribed Fire Burn Boss course. With the implementation of the State Certified Prescribed Fire Burn Boss Curriculum and Certification, SFT determined there was a need to form a specific PACE committee to review equivalency requests for persons who met the course prerequisites by means of other than taking the specific courses. Reference draft Procedure Changes for the (2019) State Fire Training Procedures Manual §2.6 and §9.1.3.4.

2) Instructor Requirements…………………………………………. Effective July 1, 2020

Current Registered Instructors
Current registered SFT instructors who meet all course prerequisite requirements and successfully complete the new CA-RX course will be authorized to teach the course.

New Instructors
A New Registered (CA-RX) Burn Boss Instructor must meet the SFT requirements for a Registered Instructor including the experience requirement.

3) Potential Agency Impacts

Accredited Regional Training Programs (ARTP), Accredited Local Academies (ALA), community colleges, and all other local delivery venues need to review the curriculum and seek approval from their curriculum committee/program sponsor, as appropriate.

NOTE: Special attention should be paid to this new CFSTES course, as it is NOT included in any current SFT certification track.
OVERVIEW
This document is intended to provide information for all State Fire Training (SFT) stakeholders on
the new State-Certified Prescribed-Fire (CA-RX) Burn Boss (2020) curriculum, which meets the
directive within Senate Bill 1260, Jackson (2018).

This course provides information about and develops the skills required for planning and managing
prescribed fire on state or private lands. This course contains instructor-led training, including
simulation exercises and a task book. Students are required to complete the prerequisites
(coursework, firing, and leadership requirements) prior to taking the instructor-led training and
completing the task book.

IMPLEMENTATION
The (CA-RX) Burn Boss and courses are new to the California State Fire Training and Education
System. As such, this new certification does not require the phase out of any existing certifications
or curriculum. The implementation plan represents a schedule designed to make the certification
available by July 1, 2020.

New (2020) Curriculum ................................................................. Available July 1, 2020

<table>
<thead>
<tr>
<th>New Curriculum</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>State-Certified Prescribed-Fire Burn Boss</td>
<td>40 Hours</td>
</tr>
</tbody>
</table>

Course Prerequisite Historical Recognition
Historical recognition provides a path for experienced prescribed-fire practitioners to satisfy the
coursework prerequisite requirements. Historical recognition is only available up to one year from
implementation date and retires on July 1, 2021.

A letter of recommendation on agency/department letterhead, signed by the authorized signatory
(a unit chief or his/her designee) and documentation of prescribed-fire experience and training
shall be submitted to the CA-RX Burn Boss registered instructor prior to attending the course. The
historical recognition documents shall be maintained by the registered instructor as verification of
course prerequisites. It is recommended that the student also maintain a copy.
New (2020) Certification ................................................................. Available July 1, 2020

Task Books/Application Form:
Implementation of the new (CA-RX) Burn Boss requires that candidates complete a comprehensive task book. This task book covers all of the job performance requirements contained in the aforementioned professional qualification standards and CTS. Occupational experience will be verified by the Fire Chief or designee on file signing the task book upon completion. In addition, a new application form will be implemented.

Certification Testing:
In response to Blueprint 2020 stakeholder comments, certification examinations will become a standardized process statewide.

INSTRUCTOR REQUIREMENTS

Instructor Registration ................................................................. Available July 1, 2020
Instructor registration begins on July 1, 2020.

Current Registered Instructors
Current registered SFT instructors who meet all course prerequisite requirements and successfully complete the new (CA-RX) Burn Boss course and have submitted a PACE IV application for review of their instructor qualifications, including appropriate education and practical experience relating to course content may be authorized to teach this course.

New Instructors
New Registered (CA-RX) Burn Boss Instructor must meet the SFT requirements for a Registered Instructor including the experience requirement.

Evaluator Requirements........................................................................................................... Available July 1, 2020
A task-book evaluator is an individual who verifies that the candidate can satisfactorily execute a job performance requirement. A qualified evaluator shall possess an equivalent or higher-level certification:

- California State-Certified Prescribed-Fire Burn Boss (CA-RX) OR
- A California State-Certified Prescribed-Fire Burn Boss instructor OR
- NWCG/CICCS Prescribed Fire Burn Boss Type 1 (current or previous qualification) OR
- NWCG/CICCS Prescribed Fire Burn Boss Type 2 (current or previous qualification) OR
- CAL FIRE Prescribed Fire Incident Commander Type 1 or Type 3
POTENTIAL AGENCY IMPACTS
Accredited Regional Training Programs (ARTP), Accredited Local Academies (ALA), community colleges, and all other local delivery venues need to review the curriculum and seek approval from their curriculum committee/program sponsor, as appropriate.

NOTE: Special attention should be paid to this new CFSTES course, as it is NOT included in any current SFT certification track.
State-Certified Prescribed-Fire Burn Boss

Certification Training Standards Guide

Publication Date: Month Year

State Fire Training coordinated the development of this CTS guide. Before its publication, the Statewide Training and Education Advisory Committee (STEAC) and the State Board of Fire Services (SBFS) recommended this CTS guide for adoption by the Office of the State Fire Marshal (OSFM).

How to Read a CTS Guide

Overview

A certification training standard (CTS) guide lists the requisite knowledge, skills, and job performance requirements an individual must complete in order to become certified in a specific job function.

It also documents and justifies the OSFM-approved revisions to the certification’s NFPA standard, and identifies where each certification training standard is taught (course plan), tested (skill sheets), and validated (task book).

Individuals aspiring to meet State Fire Training’s certification training standards must do so in accordance with the codes, standards, regulations, policies, and standard operating procedures applicable within their own agency or jurisdiction.

Format

Each certification training standard is comprised of eight sections.

Section Heading
Training standards are grouped by section headings that describe a general category. For example, the Fire Fighter 1 CTS guide includes the following section headings: NFPA Requirements, Fire Department Communications, Fireground Operations, and Preparedness and Maintenance.

Training Standard Title
The training standard title provides a general description of the performance requirement contained within the individual standard.

Authority
The CTS guide references each individual standard with one or more paragraphs of the corresponding National Fire Protection Association (NFPA) Professional Qualifications. This ensures that each fire service function within California’s certification system meets or exceeds NFPA standards.

When California requirements exceed the NFPA standard, the CTS guide cites the Office of the State Fire Marshal as the authority and prints the corresponding information in *italics*.

Job Performance Requirements
This segment includes a written statement that describes a specific job-related task, the items an individual needs to complete the task, and measurable or observable outcomes.
Requisite Knowledge
This segment lists the knowledge that an individual must acquire in order to accomplish the job performance requirement.

Requisite Skills
This segment lists the skills that an individual must acquire in order to accomplish the job performance requirement.

Content Modification
This table documents and justifies any revisions to the NFPA standard that the development or validation cadres make during the development of a CTS guide.

Cross Reference
This table documents where each training standard is taught (course plan), tested (skill sheets), and validated (task book).
Section 1: Fire History and Prescribed-Fire Laws

1-1: Describing the History and the Role of Fire

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Describe the history and the role of fire in the State of California, given current and historical conditions, so that important history, impacts, and usage of fire are described.

Requisite Knowledge
1. Describe basic fire adaptations in California ecosystems
2. Describe the human relationship with fire and impacts to the ecosystem
3. Define prescribed fire
4. Describe the usage and types of prescribed fire

Requisite Skills
1. None

1-2: Identifying Laws and Regulations Governing Prescribed Fire

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Identify laws and regulations governing prescribed fire in the State of California, given a list of applicable laws and regulations and a variety of projects, so that all applicable local, state, and federal laws and regulations pertaining to prescribed fires are identified.

Requisite Knowledge
1. Identify all applicable and current federal, state, and local laws and regulations
2. Describe the role and responsibilities of a prescribed-fire burn boss
3. Describe liability considerations and due diligence

Requisite Skills
1. None

Section 2: Burn Plans, Permits and Approvals, and Operations

2-1: Describing How Fire-Behavior Concepts Relate to Prescribed-Fire Implementation

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Describe how fire-behavior concepts relate to prescribed-fire implementation, given a project, so that fire-behavior factors can be incorporated into the burn plan.

Requisite Knowledge
1. Identify general fire-behavior factors that influence prescribed fire

Requisite Skills
None

Content Modification

</table>
2-2: Developing a Burn Plan

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Develop a burn plan, given a project area, so that competency is demonstrated and the plan can mitigate risk and achieve desired objectives.

Requisite Knowledge
1. Identify common elements of a burn plan

Requisite Skills
1. Develop goals and objectives for the prescribed fire
2. Establish a prescription to meet the identified goals and objectives
3. Develop a burn plan

Section 2: Burn Plans, Permits and Approvals, and Operations

2-3: Describing and Demonstrating the Permitting and Approval Process

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Describe and demonstrate the permitting and approval process for prescribed fire, given a prescribed-fire project and local permitting requirements, so that all requirements are met.

Requisite Knowledge
1. Describe different options for implementing prescribed fires on private lands
2. Describe state and local permitting processes
3. Describe smoke-management reporting systems, including PFIRS

Requisite Skills
1. Demonstrate use of smoke-management reporting systems, including PFIRS

2-4: Implementing a Prescribed-Fire Operation

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Implement a prescribed-fire operation in accordance with the burn plan, given a prescribed-fire burn plan, a project, and required permits and approvals, so that objectives are addressed, risk is mitigated, and safety is maintained.

Requisite Knowledge
1. Describe methods of monitoring fire behavior and managing resources to meet objectives
2. Describe the day-of-burn notification process
3. Identify logistical support needs
4. Describe the process of ensuring logistical support needs are met
5. List examples of required documentation

Requisite Skills
1. Develop an incident action plan (IAP)
2. Conduct an operational briefing using the IAP
3. Simulate the implementation of postburn procedures

Section 3: Continuing Education

3-1: Describing Best Management Practices for Prescribed-Fire Operations

Authority
1. Office of the State Fire Marshal

Job Performance Requirement
Describe best management practices for prescribed-fire operations, given current issues, developments, and laws, so that currency is maintained.

Requisite Knowledge
1. Identify changes to law, policy, or practice
2. Describe the elements of a burn plan
3. Describe the permitting and approval process
4. Describe the implementation of a prescribed-fire operation in accordance with the burn plan
5. Describe contemporary safety considerations for prescribed-fire operations

Requisite Skills
1. None

State-Certified Prescribed-Fire Burn Boss

Course Plan

Course Details

Certification: State-Certified Prescribed-Fire Burn Boss

CTS Guide: State-Certified Prescribed-Fire Burn Boss

Description: This course provides information about and develops the skills required for planning and managing prescribed fire on state or private lands. The curriculum includes the minimum standards of National Wildland Fire Training (NWCG) RX301 Prescribed Fire Implementation, RX341 Prescribed Fire Plan Preparation, and RX410 Smoke Management Techniques course qualifications. This course contains instructor-led training, including simulation exercises and a task book. Students are required to complete the prerequisites (coursework, firing, and leadership requirements) prior to taking the instructor-led training and completing the task book. As detailed in the course plan, this course was developed and formatted into the SFT curriculum development model. Stakeholders are encouraged to study this information carefully and seek clarification from SFT if questions arise. Certified persons may act as contractors with the Department of Forestry and Fire Protection or State Responsibility Area (SRA).

Designed For: Persons seeking certification as prescribed-fire burn bosses in accordance with SB 1260, Jackson (2018).

Prerequisites: Coursework Requirements

IS-100 Introduction to the Incident Command System
S-190 Introduction to Wildland Fire Behavior
S-130 Firefighter Training
S-290 Intermediate Wildland Fire Behavior (in-person recommended)

Firing Requirements
Qualified NWCG/CICCS Firing Boss (FIRB)

*or*

*both* equivalent firing experience *and*

one of the following courses: S-219 Firing Operations, CA-219 Wildland Firefighting – Firing Operations, C-234 Ignition Operations, or S-234 Ignition Operations

**Leadership Requirements**

S-131 Advanced Firefighter

*or*

L-280 Followership to Leadership

*or*

Qualified NWCG/CICCS Firefighter Type 1 (FFT1)

*or*

Equivalent leadership experience

**Standard:**  Complete all activities and formative tests.

Complete all summative tests with a minimum score of 80%.

**Hours:**  Lecture: 15:15

Activities: 22:45

Testing: 2:00

**Hours (Total):**  40:00

**Maximum Class Size:**  24

**Instructor Level:**  Primary

**Instructor/Student Ratio:**  1:12 lecture, 1:6 activities

**Restrictions:**  None

**SFT Designation:**  CFSTES
CA-RX Burn Boss

Required Resources

Instructor Resources

To teach this course, instructors need:

- SB 1260, Jackson (2018)
- Incident Response Pocket Guide (IRPG) NFES 001077
- Title 17 of the California Code of Regulations: Smoke Management Guidelines for Agricultural and Prescribed Burning
- Health and Safety Code
- Public Resources Code
- Access to Prescribed Fire Information Reporting System (PFIRS)
- National Weather Service Fire Weather Forecast
- Administrative access to PFIRS training platform
- Field Operations Guide (FOG) ICS 420-1
- Burn plan examples of varying complexity
- ICS 201 template
- Incident within an Incident (IWI) Form or agency equivalent
- 8-Line/Medical Incident Report (MIR) Form or agency equivalent
- “California Codes Related to Rx Fire” document
- Case study on Klamath River watershed ecology and fire
- Fireline Handbook Appendix B
- Behave Plus Fire Modeling Software
- Behave Plus Fire Modeling User’s Guide
- Wildland Fire Incident Management Field Guide (PDF available online)
- California Code of Regulations, Title 8, § 3395
- Examples of National Incident Management System Incident Action Plan (IAP)
- “Working with CAL FIRE Inmate Fire Crews”
- “Permitting and Approval Flow Chart”
- “Options for Prescribed Fire on Private Lands Flow Chart”
- “PFIRS Instruction Sheet”

To teach this course, instructors may use:

- Fire Weather: A Guide for Application of Meteorological Information to Forest Fire Control Operations
- Learning Fire Weather: A Self-Study Course
- The Fire Environment Concept (1972, Countryman)
- Firefighter Math Self-Paced Math Course
Online Instructor Resources

The following instructor resources are available online at [http://osfm.fire.ca.gov/training/instructorscorner.php](http://osfm.fire.ca.gov/training/instructorscorner.php):

- Prescribed Fire Information Reporting System (PFIRS): [https://ssl.arb.ca.gov/pfirs/request.php](https://ssl.arb.ca.gov/pfirs/request.php)
- Health and Safety Code
- Public Resources Code
- “We’re Not Doing Enough Prescribed Fire in the Western United States to Mitigate Wildfire Risk” (2019, C. Kolden)
- Various burn plan examples
- “Permitting and Approval Flow Chart”
- Behave Fire Modeling Software: [https://www.frames.gov/behaveplus/software-manuals](https://www.frames.gov/behaveplus/software-manuals)
- “PFIRS Instruction Sheet”
- “California Codes Related to Rx Fire” document
- “Working with CAL FIRE Inmate Fire Crews”
- ICS 201 template
- Wildland Fire Incident Management Field Guide (PDF available online)
- Incident within an Incident (IWI) Form
- 8-Line/Medical Incident Report (MIR) Form
Student Resources

To participate in this course, students need:

- Laptop computer with internet capability
- Laptop cord/power supply
- Hard hat
- Boots
- Incident Response Pocket Guide (IRPG) NFES 001077 (provided by instructor)
- Login information for PFIRS (granted by instructor in class)
- ICS 201 template
- Incident within an Incident (IWI) Form or agency equivalent
- 8-Line/Medical Incident Report (MIR) Form or agency equivalent
- “California Codes Related to Rx Fire” document
- Case study on Klamath River watershed ecology and fire
- Fireline Handbook Appendix B
- Wildland Fire Incident Management Field Guide (PDF available online)
- California Code of Regulations, Title 8, § 3395
- California Code of Regulations, Title 17
- Examples of National Incident Management System IAP
- “Working with CAL Fire Inmate Fire Crews”
- “Permitting and Approval Flow Chart”
- “Options for Prescribed Fire on Private Lands Flow Chart”
- Behave Plus Fire Modeling Software

Facilities, Equipment, and Personnel

The following facilities, equipment, or personnel are required to deliver this course:

- Classroom with internet access
- Projector and screen

The following facilities, equipment, or personnel are optional:

- Air district representative
- Fire Behavior Analyst (FBAN) or Incident Meteorologist (IMET)
- Local unit CAL FIRE representative
- Local fire district representative
- Local tribal representative
- Representative from community-based prescribed-fire group
- Sand table
- Simulation software
- Outdoor site for simulated burn
Unit 1: Introduction

Topic 1-1: Orientation and Administration

Terminal Learning Objective

At the end of this topic, a student will be able to identify facility and classroom requirements and identify course objectives, events, requirements, assignments, activities, resources, evaluation methods, and participation requirements in the course syllabus.

Enabling Learning Objectives

1. Identify facility requirements
   • Restroom locations
   • Food locations
   • Smoking locations
   • Emergency procedures

2. Identify classroom requirements
   • Start and end times
   • Breaks
   • Electronic device policies
   • Special needs and accommodations
   • Other requirements as applicable

3. Review course syllabus
   • Course objectives
   • Calendar of events
   • Course requirements
   • Student evaluation process
   • Assignments
   • Activities
   • Required student resources
   • Class participation requirements

Discussion Questions

1. What is a formative test? What is a summative test?

Activities

1. To be determined by the instructor.

Instructor Notes

1. The instructor should guide students through the process of applying for PFIRS accounts on day 1. (https://ssl.arb.ca.gov/pfirs/request.php)
Topic 1-2: State-Certified Prescribed Fire Burn Boss Certification Process

Terminal Learning Objective
At the end of this topic, a student will be able to identify different levels in the State-Certified Prescribed-Fire Burn Boss certification track, the courses and requirements for Level 1 certification, and be able to describe the task book and testing process.

Enabling Learning Objectives
1. Identify the different levels of certification in the State-Certified Prescribed-Fire Burn Boss certification track
   - Level 1
2. Identify the courses required for Level 1
   - State-Certified Prescribed-Fire Burn Boss
3. Identify any other requirements for Level 1
4. Describe the task book process
   - Complete all prerequisites and course work
   - Submit application to request task book
   - Complete all job performance requirements included in the task book
   - Must have identified evaluator verify individual task completion via signature

Discussion Questions
1. How many levels are there in the State-Certified Prescribed-Fire Burn Boss certification track? What are they?

Activities
1. To be determined by the instructor.

Unit 2: Fire History and Prescribed-Fire Laws

Topic 2-1: Describing the History and the Role of Fire

Terminal Learning Objective
At the end of this topic, given current and historical conditions, a student will be able to describe the history and the role of fire in the State of California.

Enabling Learning Objectives
1. Describe basic fire adaptations in California ecosystems
2. Describe the human relationship with fire and impacts to the ecosystem
   - Historical
   - Contemporary
3. Define prescribed fire
4. Describe the use of prescribed fire to meet various management goals, including local examples

Discussion Questions
1. What is the history of prescribed fire in your community?
2. How have humans shaped fire regimes in California over time?
3. What are some basic ecological fire adaptations?

Activities
1. To be determined by the instructor.

Instructor Notes
1. Instructor should cover traditional ecological knowledge (TEK).
2. Instructor should refer to reference reading in the Instructor’s Corner.

CTS Guide Reference: CTS 1-1

Topic 2-2: Identifying Laws and Regulations Governing Prescribed Fire

Terminal Learning Objective
At the end of this topic, given a list of applicable laws and regulations and a variety of projects, a student will be able to identify laws and regulations governing prescribed fire in the State of California.

Enabling Learning Objectives
1. Identify all applicable and current federal, state, and local laws and regulations, including but not limited to:
   • Public Resources Code, including changes made via SB 1260, Jackson (2018) and SB 901, Dodd (2018)
   • Health and Safety Code
   • California Environmental Quality Act (CEQA)
   • National Environmental Policy Act (NEPA)
   • Title 17 of the California Code of Regulations: Smoke Management Guidelines for Agricultural and Prescribed Burning
   • California Code of Regulations, Title 8 § 3395
   • Air quality management district rules
2. Describe the role and responsibilities of a prescribed-fire burn boss
3. Describe liability considerations and due diligence

Discussion Questions
1. Why is it important to be familiar with laws and regulations governing prescribed fire in California?
2. When do CEQA and NEPA apply?
3. What are some ways you can mitigate liability for prescribed-fire users?

Activities
1. The instructor may choose to have students research their local air quality management district’s rules.

Instructor Notes
1. The instructor should refer to the current version of SB 1260’s coverage of liability and due diligence and to current versions of Public Resources Code and Health and Safety Code.
2. The instructor may refer to “California Codes Related to Rx Fire,” but must verify the most current laws and regulations.
3. This topic needs to cover the current interpretation of the laws, including permits, the shared liability model, cooperative agreements, and relationships with stakeholders.

CTS Guide Reference: CTS 1-2

Unit 3: Burn Plans, Permits and Approvals, and Operations

Topic 3-1: Describing How Fire-Behavior Concepts Relate to Prescribed-Fire Implementation

Terminal Learning Objective
At the end of this topic, given a project, a student will be able to describe how fire-behavior concepts relate to prescribed-fire implementation, so that they can incorporate fire-behavior factors into the burn plan.

Enabling Learning Objectives
1. Identify general fire-behavior factors that influence prescribed fire
   • Relationship between fuels, weather, and topography
   • Weather factors such as diurnal winds, inversions, and microclimates
   • Fuel factors such as burn-down times and fuel moisture

Discussion Questions
1. Why is it important to predict fire behavior during and after a prescribed fire?
2. What local weather or other influences can you identify that might impact your prescribed fire?

Activities
1. To be determined by instructor

Instructor Notes
1. The instructor must bring in case studies to demonstrate and discuss how fire-behavior concepts relate to prescribed fire.
2. The instructor may choose to incorporate a Fire Behavior Analyst (FBAN) or Incident Meteorologist (IMET).

CTS Guide Reference: CTS 2-1

Topic 3-2: Developing a Burn Plan

Terminal Learning Objective
At the end of this topic, given a project area, a student will be able to develop a burn plan, so that competency is demonstrated and the plan can mitigate risk and achieve desired objectives.

Enabling Learning Objectives
1. Identify common elements of a burn plan
   • Site or project description
     o Fuel
     o Local weather patterns
CA-RX Burn Boss

- Topography
- Vicinity and project maps
- Goals and objectives
- Prescription parameters
  - Environmental
  - Fire behavior
- Preburn considerations, including on- and off-site requirements
- Ignition, holding, and contingency plan
  - Minimum resource requirements
  - Go/no-go checklists
  - Test fire
- Wildfire conversion plan
  - Management action points
- Risk-management considerations
- Postburn criteria

2. Develop goals and objectives for the prescribed fire
3. Develop a prescription to meet the identified goals and objectives
4. Develop a burn plan that includes common elements

Discussion Questions
1. Why is it important to have clearly identified goals and objectives?
2. What cultural and ecological criteria should be considered when developing burn goals and objectives?
3. When should a burn plan be reviewed?
4. When should a burn plan be amended?
5. What tools can be used in the development of a prescription and for determining holding resource requirements?

Activities
1. The instructor must create an activity directing students to develop and present a burn plan.
2. The instructor must create an activity directing students to use modeling tools to develop prescription parameters, such as Behave Fire Modeling System or Appendix B.

Instructor Notes
1. It is recommended that the instructor take the students to a potential burn site, perform an assessment, and develop their burn plans based on that. The instructor may have students work in small groups to develop and present the burn plan.
2. Since this can be a lengthy lecture, the instructor must weave the activities in with the instruction, directing students to complete the portions of the activity that they have just been instructed on rather than waiting until the end of the topic.
3. The instructor may bring in examples of burn plan amendments.
4. The instructor should have students consider locally relevant cultural and ecological factors in the goals and objectives.
Topic 3-3: Describing and Demonstrating the Permitting and Approval Process

Terminal Learning Objective
At the end of this topic, given a prescribed-fire project and local permitting requirements, a student will be able to describe and demonstrate the permitting and approval process for prescribed fire, so that all requirements are met.

Enabling Learning Objectives
1. Describe different options for implementation of prescribed fires on private lands
   • Agency-led programs
   • Community-based programs
   • Landowner-led options
   • Private contractors
2. Describe state and local permitting processes
   • Authority having jurisdiction (AHJ)
     o Federal, state, local
   • Air quality management district
3. Describe smoke-management reporting systems, including PFIRS
4. Demonstrate use of smoke-management reporting systems, including PFIRS

Discussion Questions
1. How do you determine the AHJ?
2. How do permit requirements vary at different times of year and by location?
3. Why is a smoke-management plan important?
4. How does burn-day status affect your ability to implement prescribed fire?
5. Why is it important to build trust and relationships with your federal, state, and local partners?

Activities
1. The instructor must direct students to use PFIRS to create a smoke-management plan.

Instructor Notes
1. The instructor can have the students role-play going through the permitting process.
2. Ensure that the students are using the PFIRS training platform for ELO #4.
3. The instructor must use “PFIRS Instruction Sheet”
4. If the region doesn’t use PFIRS, instructors should also guide students in the use of their local smoke-management reporting system.
5. The instructor should refer to the flow chart when discussing the options for implementation of prescribed fires on private lands.
6. It is highly recommended that the instructor invite the local Vegetation Management Program (VMP) coordinator as well as representatives from community-based prescribed-fire groups to speak.
Topic 3-4: Implementing a Prescribed-Fire Operation

Terminal Learning Objective

At the end of this topic, given a prescribed-fire burn plan, a project, and required permits and approvals, a student will be able to implement a prescribed-fire operation in accordance with the burn plan, so that objectives are addressed, risk is mitigated, and safety is maintained.

Enabling Learning Objectives

1. Develop an incident action plan (IAP)
   - Management and control objectives
   - Safety considerations
   - Communications plan
   - Prescribed burn organization
     - Resource management and coordination
     - Operational leadership
     - Interagency cooperation
   - Medical plan
   - Operational map
   - Weather forecast

2. Conduct an operational briefing that addresses all components of the IAP

3. Describe methods of monitoring fire behavior and managing operational resources to meet objectives

4. Describe the notification process
   - Preburn
   - Day of
   - Postburn

5. Identify logistical support needs

6. Describe the process of ensuring logistical support needs are met

7. List examples of required documentation

8. Simulate the implementation of postburn procedures
   - After-action review (AAR)
   - Postburn notifications
   - Mop-up and patrol
   - Transfer of responsibility

Discussion Questions

1. Who should be notified on the day of the burn?

2. What are the benefits of a thorough briefing?

3. Why is it important to monitor and recognize changes in the fire environment?

4. What are common logistical support resources needed for prescribed fires?

5. Why is radio discipline on the fireline important?

6. Why is it important to continue patrol and mop up after the day of ignitions?
7. Why is it important to conduct an AAR?

Activities
1. The instructor must create an activity directing groups of students to develop an IAP, including identifying logistical support needs, and present an operational briefing using the IAP.
2. The instructor must create an activity simulating a student-led prescribed-fire operation, including an AAR.

Instructor Notes
1. Since this can be a lengthy lecture, the instructor must weave the activities in with the instruction, directing students to complete the portions of the activity that they have just been instructed on rather than waiting until the end of the topic.
2. Simulations can use sand tables, software, or table-top exercises or be in the field.
3. The instructor must cover communication of leader’s intent.
4. It is recommended that the instructor have the students simulate fireline communications.
5. The instructor should cover fire weather forecasts, including how to submit, retrieve, and interpret an NWS Spot Weather Forecast.
6. During IAP development, the instructor may need to review basic ICS terminology.

Course Details

Certification: State-Certified Prescribed-Fire Burn Boss
CTS Guide: State-Certified Prescribed-Fire Burn Boss
Description: This course meets the continuing education requirements for State-Certified Prescribed-Fire Burn Boss.
Designed For: State-Certified Prescribed-Fire Burn Boss
Prerequisites: State-Certified Prescribed-Fire Burn Boss
Standard: Complete all activities with 100% attendance.
Hours: Lecture: 3:00
Activities: 1:00
Hours (Total): 4:00
Maximum Class Size: 30
Instructor Level: Primary
Instructor/Student Ratio: 1:30
Restrictions: None
SFT Designation: CFSTES
CA-RX Burn Boss Refresher

Required Resources

Instructor Resources

To teach this course, instructors need:

- SB 1260, Jackson (2018)
- Health and Safety Code
- Public Resources Code
- Access to Prescribed Fire Information Reporting System (PFIRS)
- Administrative access to PFIRS training platform
- National Weather Service Fire Weather Forecast
- Incident Response Pocket Guide (IRPG) NFES 001077
- California Code of Regulations, Title 8, § 3395
- California Code of Regulations, Title 17

To teach this course, instructors may use:

- Field Operations Guide (FOG) ICS 420-1
- Fire Weather: A Guide for Application of Meteorological Information to Forest Fire Control Operations
- Learning Fire Weather: A Self-Study Course
- The Fire Environment Concept (1972, Countryman)
- Burn plan examples of varying complexity
- ICS 201 template
- Incident within an Incident (IWI) Form or agency equivalent
- 8-Line/Medical Incident Report (MIR) Form or agency equivalent
- “California Codes Related to Rx Fire” document
- Case study on Klamath River watershed ecology and fire
- Fireline Handbook Appendix B
- Wildland Fire Incident Management Field Guide (PDF available online)
- Examples of National Incident Management System Incident Action Plan (IAP)
- “Working with CAL FIRE Inmate Fire Crews”

Online Instructor Resources

The following instructor resources are available online at http://osfm.fire.ca.gov/training/instructorscorner.php:

- The Wildland Fire Lessons Learned Center website: www.wildfirelessons.net
CA-RX Burn Boss Refresher

- Health and Safety Code
- Public Resources Code
- “California Codes Related to Rx Fire” document
- “Working with CAL FIRE Inmate Fire Crews”
- ICS 201 template
- Wildland Fire Incident Management Field Guide (PDF available online)
- Incident within an Incident (IWI) Form
- 8-Line/Medical Incident Report (MIR) Form

Student Resources

To participate in this course, students need:
- Laptop computer with internet capability
- Laptop cord/power supply
- IRPG (provided by instructor)
- Login information for PFIRS (granted by instructor in class)

Facilities, Equipment, and Personnel

The following facilities, equipment, or personnel are required to deliver this course:
- Classroom with internet access
- Projector and screen

The following facilities, equipment, or personnel are optional:
- Air district representative
- Fire Behavior Analyst (FBAN) or Incident Meteorologist (IMET)
- Local unit CAL FIRE representative
- Local fire district representative
- Local tribal representative
- Representative from community-based prescribed-fire gro
Unit 1: Introduction

Topic 1-1: Orientation and Administration

Terminal Learning Objective
At the end of this topic, a student will be able to identify facility and classroom requirements and identify course objectives, events, requirements, assignments, activities, resources, evaluation methods, and participation requirements in the course syllabus.

Enabling Learning Objectives
1. Identify facility requirements
   • Restroom locations
   • Food locations
   • Smoking locations
   • Emergency procedures
2. Identify classroom requirements
   • Start and end times
   • Breaks
   • Electronic device policies
   • Special needs and accommodations
   • Other requirements as applicable
3. Review course syllabus
   • Course objectives
   • Calendar of events
   • Course requirements
   • Student evaluation process
   • Assignments
   • Activities
   • Required student resources
   • Class participation requirements

Discussion Questions
1. None

Activities
1. To be determined by the instructor.

Unit 2: Best Management Practices

Topic 2-1: Describing Best Management Practices for Prescribed-Fire Operations

Terminal Learning Objective
At the end of this topic, a student, given current issues, developments, and laws, will be able to describe best management practices for prescribed-fire operations, so that currency is maintained.
Enabling Learning Objectives
1. Identify changes and updates to law, policy, or practice
2. Describe the elements of a burn plan
3. Describe the permitting and approval process
4. Describe the implementation of a prescribed-fire operation in accordance with the burn plan
5. Describe contemporary safety considerations for prescribed-fire operations

Discussion Questions
1. What successes and challenges have you encountered when managing prescribed-fire projects?
2. Identify safety challenges or situations that you have experienced on a prescribed burn. What were the mitigations? What was the outcome?

Activities
1. The instructor must create an activity directing students to review examples of prescribed fires and determine lessons learned.

Instructor Notes
1. ELOs 2–4 are reviews of State-Certified Prescribed-Fire Burn Boss
2. The instructor should refer to the Wildland Fire Lessons Learned Center website.
3. The instructor may refer to “California Codes Related to Rx Fire” document but must verify the most current laws and regulations.

Table of Contents

Purpose and Process .................................................................................................................................. 1
Task Book Requirements .......................................................................................................................... 4
  Job Performance Requirements ........................................................................................................... 5
Final Evaluation ........................................................................................................................................ 9
Authorities ................................................................................................................................................. 10
Review and Approval .............................................................................................................................. 11
Signature Verification ............................................................................................................................... 12
Purpose and Process

The State Fire Training certification task book is a performance-based document. It lists the Experience, Rank or Position, and Job Performance requirements for certification.

Purpose

Each certification task book focuses on a single State Fire Training job function certification. A certification task book identifies the minimum requirements necessary to perform the duties of that certification. Completion of a certification task book verifies that the candidate has the required experience, holds the required rank or position, and has demonstrated the job performance requirements necessary to obtain that certification.

Responsibilities

Candidate Responsibilities

The candidate is the individual pursuing certification.

All candidates shall:

- Complete a block on the Signature Verification page with an original wet-ink signature.
- Complete the Experience, Rank, and Job Performance Requirements.
- Accurately record and maintain the certification task book.
- Sign and date the Candidate verification statement under the Authorities with an original wet-ink signature.
- Retain a copy of the completed certification task book.
- Submit the completed certification task book to State Fire Training.

Evaluator Responsibilities

An evaluator is an individual who verifies that the candidate can satisfactorily execute a job performance requirement. A qualified evaluator shall possess the equivalent or higher-level certification:

- California State-Certified Prescribed-Fire Burn Boss (CA-RX)
- A California State-Certified Prescribed-Fire Burn Boss instructor
- NWCG/CICCS Prescribed Fire Burn Boss Type 1 (current or previous qualification)
- NWCG/CICCS Prescribed Fire Burn Boss Type 2 (current or previous qualification)
- CAL FIRE Prescribed Fire Incident Commander Type 1 or Type 3

A certification task book may have more than one evaluator.

All evaluators shall:
Purpose and Process

- Complete a block on the Signature Verification page with an original wet-ink signature.
- Review and understand the candidate's certification task book requirements and responsibilities.
- Verify the candidate’s successful completion of one or more job performance requirements through observation or review.
- Sign all appropriate lines in the certification task book with an original wet-ink signature to record demonstrated performance of tasks.

Certifying Agency

The director (or authorized designee) is the individual who reviews and confirms the completion of a candidate's certification task book.

The director (or authorized designee) shall:
- Designate qualified evaluators.
- Complete a block on the Signature Verification page with an original wet-ink signature.
- Review the candidate’s certification task book requirements and responsibilities.
- Verify the candidate has obtained the appropriate signatures to verify successful completion of each job performance requirement.
- Sign the fire chief verification statement under Authorities with an original wet-ink signature. If signing as an authorized designee, verify that your signature is on file with State Fire Training.

Completion Process

When you receive your certification task book:

1. Thoroughly review the Job Performance Requirements segments to make sure that you understand them.
2. Confirm who will evaluate your job performance requirements.
3. Complete each requirement in the Job Performance Requirements segment and ensure that an evaluator provides feedback and signs and dates each one to verify completion.
4. Ask your director (or authorized designee) to verify certification task book completion by signing the appropriate paragraph under Authorities.
5. Make a copy of the completed certification task book to retain with your personal records.
6. Mail the original certification task book to State Fire Training (see address below).

After receipt and review of your completed certification task book, State Fire Training will authorize the certification task book and mail your certificate to you. State Fire Training retains the completed, authorized original certification task book in your career file.
Purpose and Process

If State Fire Training determines that your certification task book is incomplete, State Fire Training will return your certification task book with a checklist indicating what needs to be completed.

Do not submit this certification task book until you have:
- Completed Job Performance Requirements
- Obtained all required signatures

State Fire Training Mailing Address

Office of the State Fire Marshal
State Fire Training
Attn: Certification Section
1131 S Street
Sacramento, CA 95811

Completion Timeframe

State Fire Training aims to update certification task books on a five-year cycle. A certification task book in process is valid until State Fire Training issues a new certification task book for the same job function certification.

If a candidate does not complete a certification task book before the release of a new version, State Fire Training will send the candidate a task book revision supplement identifying any revisions or new requirements. The candidate must fulfill all requirements included in the revision supplement and submit the revision supplement with the original task book.
Task Book Requirements

State Fire Training confirms that there are no experience or rank or position requirements for this job function certification.
Job Performance Requirements

All job performance requirements must be performed in accordance with the standards of the authority having jurisdiction (AHJ) or the National Fire Protection Association (NFPA), whichever is more restrictive.

Burn Plans, Permits and Approvals, and Operations

The final evaluation will only take place after the individual demonstrates all competencies and skills for the position, which will include at least one but may require more demonstrations of each Job Performance Requirement.

1. Develop a burn plan, so that competency is demonstrated and the plan can mitigate risk and achieve desired objectives. (Topic 3-2)

Procedure Changes

Effective Date: DRAFT

Section Change: Add section 2.6 and 9.1.3.4

Justification: With the implementation of the State Certified Prescribed Fire Burn Boss Curriculum and Certification, SFT determined there was a need to form a specific PACE committee to review equivalency requests for persons who met the course prerequisites by means of other than taking the specific courses.

SFT Contact: Contact SFT Staff assigned to the specific certification.

Note: All new text appears in underline. All deleted text appears in strikeout.

7.13: STATE-CERTIFIED PRESCRIBED- FIRE BURN BOSS

7.13.1: STATE-CERTIFIED PRESCRIBED- FIRE BURN BOSS

7.13.1.1: Overview

1. State-Certified Prescribed-Fire Burn Boss includes instruction on how to perform essential and advanced-prescribed fire tasks without supervision; including site inspections and prescribed fire planning, obtaining approval and permits, developing and implementing a burn plan, monitoring fire effects and maintaining prescriptive requirements, and conducting an after-action review. Certified persons may act as contractors with the Department of Forestry and Fire Protection.

D. The committee shall include one individual from each of the following fields:
   1. CAL FIRE Northern Region
   2. CAL FIRE Southern Region
   3. SFT Registered Instructor for the State-Certified Prescribed Fire Burn Boss course
E. The Chief of State Fire Training may appoint technical advisors based on a specific need.
F. Committee members shall consistently participate at the meetings during their two-year term.
G. Committee members shall maintain confidentiality and respect the rights of privacy for those applications reviewed. Failure to maintain confidentiality shall be cause for terminating committee membership.

2.2.3: MEETINGS

A. The committee shall meet quarterly at the SFT office in Sacramento or through a virtual platform.

B. The committee may ask the applicant to provide additional information or documentation.

9.1.3.4: Equivalency for State-Certified Prescribed-Fire Burn Boss Course Prerequisites

A. To obtain equivalency for the State-Certified Prescribed-Fire Burn Boss course prerequisites a course, the applicant shall submit the following items to SFT:
   1. A justification letter that includes:
      i. A request for Course Equivalency Review
      ii. A list of the SFT State-Certified Prescribed-Fire Burn Boss course prerequisites for which he or she seeks equivalency
      iii. A corresponding list of the courses he or she wishes to have SFT approve as equivalent
   2. Course materials that demonstrate course content and learning objectives, including but not limited to:
      i. Syllabus
      ii. Course description
      iii. Course outline
      iv. Textbook table of contents
   3. Course completion verification
      i. A copy of a certificate, credential, and/or transcript for each equivalent course requested
      ii. SFT may request validation with an original document during the evaluation process
   4. A completed SFT Fee Schedule (including Course Equivalency Review section)
   5. A nonrefundable Course Equivalency Review fee

B. SFT shall acknowledge receipt of the application.

C. The PACE VI Committee reviews the applicant’s request.
   1. The committee may contact the applicant to address questions.
2. The committee may require the applicant to participate in a phone or in-person interview to address any unresolved concerns.
3. Applicants are responsible for their own costs related to attendance, travel, and miscellaneous expenses.

D. SFT shall notify the applicant in writing of the committee’s decision.
   1. The committee’s decision is final.
State-Certified Prescribed-Fire
Burn Boss

Firing Boss and Leadership Experience
Equivalency Application

This is an application for:

☐ Firing Boss Experience Equivalency (fill out section A)
☐ Leadership Experience Equivalency (fill out section B)
☐ Both (fill out sections A and B)

Candidate Information

Name _____________________________________________________________

Contact information _________________________________________

_________________________________________________________________

_________________________________________________________________

A. Firing Boss Experience Equivalency

Prescribed-Fire Experience

How many prescribed-fire projects have you been involved with? (Attach any supporting documents.)

_________________________________________________________________

Firing-Operations Projects

In order to qualify for the firing experience equivalency, you must demonstrate that you have significant experience supervising firing operations.
Describe two to three projects in which you were managing firing operations. A greater number of and/or higher-complexity projects will increase your chances of gaining equivalency.

**Project 1**

Date

Location

Vegetation type (grass, brush, timber understory, etc.)

Project description: your role, size of project, number of people, tools and equipment used, successes and challenges (Attach any supporting documents.)

Describe the firing plan and how it was implemented. Include information on how firing patterns and sequence were used to achieve desired fire behavior.
Project 2

Date _____________________________________________________________

Location _______________________________________________________

Vegetation type (grass, brush, timber understory, etc.)

Project description: your role, size of project, number of people, tools and equipment used, successes and challenges (Attach any supporting documents.)

Describe the firing plan and how it was implemented. Include information on how firing patterns and sequence were used to achieve desired fire behavior.
Project 3

Date

Location

Vegetation type (grass, brush, timber understory, etc.)

Project description: your role, size of project, number of people, tools and equipment used, successes and challenges (Attach any supporting documents.)

Describe the firing plan and how it was implemented. Include information on how firing patterns and sequence were used to achieve desired fire behavior.
B. Leadership Experience Equivalency

Leadership Experience

In order to qualify for the leadership experience equivalency, you must demonstrate that you have significant experience leading at least three to five people toward a common objective. Please describe your leadership experience, including the situation or environment, duration, tasks, and challenges and successes. Leadership experience need not be fire related. (Attach any applicable supporting documents or references.)
