**Course Details**

**Description:**
This is an instructor-led course intended to be presented at the local level. The course lessons provide introduction to the function, maintenance and use of internal combustion engine powered chainsaws, and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chainsaw, providing hands-on cutting experience in surroundings similar to fireline situations.

**Designed For:**
Individuals desiring to be qualified as Basic Faller (FAL3), completed SFT Firefighter 2 training, Incident Commander Type 5 (ICT5), or Felling Boss, Single Resource (FELB).

**Authority:**
National Wildfire Coordinating Group (NWCG)

**Prerequisites:**
Completed SFT Firefighter 1 training. Satisfactory completion of pre-course work.

**Standard:**
N/A

**Hours:**
24-36 hours

**Maximum Class Size:**
24

**Instructor Level:**
Primary instructor

**Instructor/Student Ratio:**
1 primary instructor per 6 students (skills)

**Restrictions:**
Limited to Instructor-Led Delivery only.

**SFT Designation:**
FSTEP
Required Resources

Online Instructor Resources
The following instructor resources are required and are available online at https://www.nwcg.gov/publications/training-courses/s-212
- Instructor-led delivery course materials
- Instructor Guide
- Student Workbook

Student Resources
To participate in this course, students need:
- Pre-Course Work Assignment
- Student Workbook

Facilities, Equipment, and Personnel
The following facilities, equipment, or personnel are required to deliver this course:

Facilities
- Standard classroom equipped for 24 students
- Whiteboards or easel pads with appropriate writing implements
- Projector/TV with appropriate laptop connections
- Wifi/Internet access

### Time Table Key

1. The Time Table documents the amount of time required to deliver the content included in the course plan.

2. Time is documented using the quarter system: 15 min. = .25 / 30 min. = .50 / 45 min. = .75 / 60 min. = 1.0.

3. The Course Totals do not reflect time for lunch (1 hour) or breaks (10 minutes per each 50 minutes of instruction or assessment). It is the instructor’s responsibility to add this time based on the course delivery schedule.

4. Application (activities, skills exercises, and formative testing) time will vary depending on the number of students enrolled and the acquired structure selected for training. The Application time documented is based on the maximum class size identified in the Course Details section.

5. Summative Assessments are determined and scheduled by the authority having jurisdiction. These are not the written or psychomotor State Fire Training certification exams. These are in-class assessments to evaluate student progress and calculate course grades.
Objectives

Course Objectives

1. Define and apply chainsaw safety standards as required by OSHA and agency handbooks, manuals, directives, and owner’s manuals.
2. Identify and demonstrate basic chainsaw operation, troubleshooting, maintenance, and safety features.
3. Demonstrate the tactical application of chainsaws in fireline construction and mop up operations.
