Dear Mike,

I am pleased to tell you about Thomas Edison State College’s new online Master of Science in Homeland Security degree program. This 36-credit program is offered completely online and is designed for adults interested in leadership positions in the fields of homeland security and emergency preparedness.

The curriculum focuses on domestic and global issues in security, and developing competencies in theory, analysis, practice and policymaking. Course work examines law enforcement, terrorism, intelligence, legal issues, emergency management, cybersecurity, biosecurity and public administration issues. Graduates will be prepared to guide and supervise day-to-day operations and strategic planning and other operations where decision making is critical.

As a student, you will gain an in-depth understanding of the roles of technology, intelligence and law in establishing protection policies and procedures required to respond to and mitigate threats and disasters.

I’ve enclosed a brochure that includes more information about the program and hope you contact us to learn more. We are happy to speak with you about this new program or to answer any questions you may have. Please contact us at (888) 442-8372 or gradstudies@tesc.edu.

We look forward to helping you achieve your educational and professional goals.

Sincerely,

[Signature]

Henry van Zyl, DEd
Acting Dean, Heavin School of Arts and Sciences
Admission to the Master of Science in Homeland Security degree program is competitive and based on a qualitative review of a candidate's application. All applicants must possess a bachelor's degree from a regionally accredited institution. A written essay is evaluated critically and used to assess a potential student's ability to succeed in and benefit from the program.

TO LEARN MORE about the Master of Science in Homeland Security degree program or to speak with an admissions counselor, please contact us at (888) 442-8372 or gradstudies@tesc.edu.

TO APPLY ONLINE or review complete graduate admissions requirements, visit www.tesc.edu/apply.
### COURSES AND CURRICULUM

The Master of Science in Homeland Security degree program examines domestic and global issues in security. Graduates develop competencies in theory, analysis, practice and policymaking and gain an in-depth understanding of the roles of technology, intelligence and law in establishing protection policies and procedures and in responding to and mitigating threats and disasters, whether natural or anthropogenic.

### WHY CHOOSE US

#### Why Earn a Master of Science in Homeland Security at Thomas Edison State College?

> You will develop competencies critical to personal and professional growth and gain leadership skills that employers value.

> Our program fits your busy life. You'll take flexible, high-quality online courses at your own pace guided by mentors who are subject matter experts that specialize in working with adult students.

> In addition to online courses, you can transfer graduate credits and earn credit for professional training and college-level knowledge you have acquired outside the classroom.

### Learning Outcomes

After successfully completing the Master of Science in Homeland Security program, graduates will be able to:

> Analyze terrorism as it relates to the United States and internationally.

> Strategize plans to address disasters and threats to security.

> Apply statutory and constitutional legal principles to implementation of national and global security strategies.

> Debate the relationship between security versus personal and societal freedom.

> Analyze response and recovery efforts in homeland security at the local, state, federal and tribal levels.

> Analyze national and global intelligence mechanisms, security procedures and organizations and the interplay among them and between them and public institutions.

> Evaluate critical resources and key infrastructures that are potential targets of security risk.
