Executive Chief Fire Officer
(NFPA Fire Officer IV)

Certification Training Standards Guide
November 2014

California Department of Forestry and Fire Protection
Office of the State Fire Marshal
State Fire Training
This CTS guide utilizes NFPA 1021 Standard for Fire Officer Professional Qualifications 2014 to provide the qualifications for State Fire Training’s Executive Chief Fire Officer certification.

State Fire Training coordinated the development of this CTS guide. Before its publication, the Statewide Training and Education Advisory Committee (STEAC) and the State Board of Fire Services (SBFS) recommended this CTS guide for adoption by the Office of the State Fire Marshal (OSFM).

State Fire Training

Mission
To enable the California Fire Service to safely protect life and property through education, training, and certification.

The California Fire Service Training and Education System
The California Fire Service Training and Education System (CFSTES) was established to provide a single statewide focus for fire service training in California. CFSTES is a composite of all the elements that contribute to the development, delivery, and administration of training for the California fire service. The authority for the central coordination of this effort is vested in the Training Division of the California State Fire Marshal's Office with oversight provided by the State Board of Fire Services.

CFSTES facilitates, coordinates, and assists in the development and implementation of standards and certification for the California fire service. CFSTES:
1. Administers the California Fire Academy System
2. Provides accredited courses leading to certification and approved standardized training programs for local and regional delivery
3. Administers the national accreditation process in California
4. Publishes certification training standards, course plans, and a capstone task book for each certified level in the California fire service

CFSTES is a fire service system developed by the fire service, for the fire service. It is only as successful and effective as the people involved in it.
Acknowledgments

State Fire Training appreciates the hard work and accomplishments of those who built the solid foundation on which this program continues to grow.

State Fire Training gratefully acknowledges the following individuals and organizations for their diligent efforts and contributions that made the development and publication of this document possible.

**CAL FIRE**

**Ken Pimlott**  
*Director, CAL FIRE*

**Tonya Hoover**  
*State Fire Marshal*

**Mike Richwine**  
*Assistant State Fire Marshal*

**None**  
*Chief, State Fire Training*

**Ron Coleman**

*Sacramento State*
Cadre Members

Roxanne Bercik
Deputy Fire Chief (Retired), Los Angeles Fire Department

Frank Cardinale*
Assistant Deputy Chief (Retired), San Francisco Fire Department

Gary Dominguez*
Director of Fire Instruction, Fire Technology Department, Santa Ana College

Chris Haas
Fire Chief (Retired), Manteca Fire Department

Donald E. Mahany
Assistant Dean Human Services and Technology, Santa Ana College

Aaron McAlister*
Fire Chief, City of Dixon

Corey G. Rose *
Battalion Chief, Los Angeles Fire Department

David Stone*
Assistant Fire Chief, Los Angeles County Fire Department

John Wagner*
Assistant Chief, Sacramento Metro Fire Department

* Denotes participation on the Validation Cadre

Partners

State Fire Training also extends special acknowledgement and appreciation to the Conference and Training Services Unit with the College of Continuing Education at California State University, Sacramento, for its ongoing meeting logistics and curriculum development support, innovative ideas, and forward-thinking services. This collaboration is made possible through an inter-organization agreement between CAL FIRE and Sacramento State.
How to Read a CTS Guide

State Fire Training develops a Certification Training Standards (CTS) Guide for a variety of job functions in the fire service such as firefighter, driver/operator, fire instructor, and company officer. The CTS guide lists the requisite knowledge and skills and the job performance requirements a person is expected to complete in order to become certified in a specific function. CTS guides are appropriate for fire service personnel and individuals in related occupations pursuing State Fire Training certification.

Each CTS guide serves as a foundation for the certification programs recommended for adoption by the Office of the State Fire Marshal. Any certification program must be based on job-related knowledge and measurable performance standards. To master the knowledge and skills needed for specialized operations, individuals will require additional training to augment the performance standards included in the CTS guide.

Within the CTS guide, it is impossible to capture the different policies and procedures of each organization in the California fire service. Individuals aspiring to meet State Fire Training’s certification training standards must do so in accordance with the codes, standards, regulations, policies, and standard operating procedures applicable within their own departments or jurisdictions.

Format

Each certification training standard included in the CTS guide includes the following:

Section Heading
The section heading describes a general category for a group of training standards. For example, the Fire Marshal CTS includes the following sections: Administration, Risk Management, Community Relations, Professional Development, Regulatory Programs, Fire and Life Safety, and Investigation. Each section contains one or more individual training standards.

Training Standard Title
The training standard title provides a general description of the performance requirement contained within the standard.

Authority
The CTS guide references each standard with one or more paragraphs of the corresponding National Fire Protection Association (NFPA) Professional Qualifications. This ensures that each fire service function within California’s certification system meets or exceeds NFPA standards.
When California requirements exceed the NFPA standard, the CTS guide cites the Office of the State Fire Marshal as the authority and prints the corresponding information in *italics*.

**Given**
This section lists the objects, equipment, materials, or facilities an individual needs in order to acquire the requisite knowledge and skills or to accomplish the job performance requirement(s) within a training standard.

**Requisite Knowledge and Skills**
This section lists the knowledge and skills that an individual must acquire in order to accomplish the job performance requirement(s) within a training standard.

This section does not include NFPA requisite knowledge or skills that are too general to teach or that individuals should develop through life experiences. For example, a training standard would not list “communicate orally and in writing” or “ability to relate interpersonally” unless they specifically apply to a job performance requirement about acquiring communication skills or developing interpersonal relationships.

**Job Performance Requirements**
This section includes one or more written statements that describe a specific job-related task and define measurable or observable outcomes. After an individual completes all coursework and requisite requirements, the capstone task book process verifies completion of job performance requirements.

**Content**
In addition to the individual certification training standards, the CTS guide also includes State Fire Training Revisions and Errata pages.

**State Fire Training Content**
Located at the back of the CTS guide, this table documents any significant revisions made by State Fire Training to the NFPA standards in the development of this CTS guide. This table is used to justify content additions and advise the course plan development team.

**Errata**
Located at the back of the CTS guide, this page documents any changes made to the CTS guide outside of the five-year NFPA revision cycle.
Executive Chief Fire Officer

Section 1: Definition of Duties

1-1: Definition of Duty for Executive Chief Fire Officer

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications (2014)
- Paragraph 7.2
- Paragraph 7.3
- Paragraph 7.4
- Paragraph 7.6
- Paragraph 7.7

Given
1. Sections 7.2, 7.3, 7.4, 7.6, and 7.7 of NFPA 1021 (2014)

Requisite Knowledge and Skills
1. Administrate job performance requirements and evaluate and improve the department, according to the specified job performance requirements
2. Project a positive image of the fire department to the community, according to the specified job performance requirements
3. Perform long-range planning and fiscal projections, according to the specified job performance requirements
4. Develop plans for major disasters, according to the specified job performance requirements
5. Administer a comprehensive risk management program, according to the specified job performance requirements

Job Performance Requirements
1. There are no job performance requirements identified for this training standard.
Section 2: Human Resource Management

2-1: Determining Human Resource Requirements

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications (2014)
   • Paragraph 7.2.1
2. Office of the State Fire Marshal

Given
1. Relevant community and organization demographic data

Requisite Knowledge and Skills
1. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
2. Interpret policies, procedures, and contractual agreements
3. Review current best practices for recruitment, selection, promotion, and placement of human resources
4. Analyze relevant community and organization demographic data in relation to organization demographics
5. Identify formal and informal community leaders
6. Identify community issues
7. Analyze recruitment issues
8. Solve problems
9. Delegate authority
10. Apply evaluation process

Job Performance Requirements
1. Using the organization's human resource demographics, determine effective recruitment, selection, and placement of human resources according to the law and consistent with current best practices.
2-2: Developing an Employee-Management Program

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications (2014)
• Paragraph 7.2.2

Given
1. Current member/management relations

Requisite Knowledge and Skills
1. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
2. Interpret policies, procedures, and contractual agreements
3. Analyze current status of employee relations
4. Analyze the current employee/management relations
5. Relate interpersonally
6. Demonstrate a collaborative communication style
7. Negotiate in a labor-management setting
8. Conduct program implementation

Job Performance Requirements
1. Initiate the development of a positive and participative member/management program.
2-3: Establishing a Professional Development Program

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
   • Paragraph 7.2.3
2. Office of the State Fire Marshal

Given
1. A summary of the job requirements for all positions within the organization

Requisite Knowledge and Skills
1. Identify internal and external customers
2. Assess current education and training status of members
3. Assess community needs
4. Identify training and education resources
5. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
6. Interpret internal and external policies, procedures, and contractual agreements
7. Organize data and resources

Job Performance Requirements
1. Establish and evaluate a list of education and in-service training goals so that all members can achieve and maintain required proficiencies.
2-4: Evaluating Member Assistance Programs

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
• Paragraph 7.2.4

Given
1. Member assistance program data

Requisite Knowledge and Skills
1. Assess available member assistance programs
2. Analyze member and organization needs
3. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
4. Interpret policies, procedures, and contractual agreements
5. Interpret results

Job Performance Requirements
1. Appraise a member assistance program to determine if the program produces the desired results and benefits.
2-5: Evaluating Incentive Programs

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
   • Paragraph 7.2.5
2. Office of the State Fire Marshal

Given
1. Incentive program data

Requisite Knowledge and Skills
1. Assess available incentive programs
2. Analyze member and organization needs
3. Apply local, state/provincial, and federal statutes, regulations, and ordinances
4. Interpret policies, procedures, and contractual agreements
5. Interpret results

Job Performance Requirements
1. Evaluate an incentive program to determine if the desired results are achieved.
Section 3: Community and Government Relations

3-1: Exercising Leadership in Community and Government Relations

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
   • Paragraph 7.3.1
2. Office of the State Fire Marshal

Given
1. A community event

Requisite Knowledge and Skills
1. Analyze community demographics
2. Identify formal and informal community and civic leaders
3. Engage formal and informal community and civic leaders
4. Interpret community and civic issues
5. Identify customer service programs
6. Conduct public relations
7. Communicate orally and in writing

Job Performance Requirements
1. Attend, participate in, and assume a leadership role in community events in order to understand and respond to community needs and enhance the image of the organization.
Section 4: Administration

4-1: Developing a Comprehensive, Long-range Plan

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
- Paragraph 7.4.1

Given
1. Current and projected community requirements
2. Current organization status and resources

Requisite Knowledge and Skills
1. Identify the elements of a comprehensive plan
2. Conduct a comprehensive needs assessment (NFPA 1021: 7.4.3)
3. Analyze current organization status in relation to the needs assessment
4. Assess physical and geographic characteristics
5. Analyze community demographics
6. Analyze community plan
7. Assess staffing requirements
8. Determine response time benchmarks
9. Interpret fiscal analysis
10. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
11. Interpret policies, procedures, and contractual agreements
12. Comply with public policy processes
13. Forecast resources
14. Make public presentations

Job Performance Requirements
1. Develop a comprehensive, long-range plan to meet the projected needs of the community.
4-2: Meeting Organization Training Goals

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
• Paragraph 7.4.2

Given
1. Data that reflect community needs and resources

Requisite Knowledge and Skills
1. *Conduct* needs assessment
2. *Assess* physical and geographic characteristics
3. *Evaluate* building and fire codes to determine their influence on training needs
4. *Review* the organization’s training plan
5. *Assess training* staffing requirements
6. *Assess* training standards
7. *Apply* local, state/provincial, and federal laws, statutes, regulations, and ordinances
8. *Interpret* policies, procedures, and contractual agreements
9. *Interpret* fiscal analysis
10. *Analyze* data

Job Performance Requirements
1. Evaluate and project training requirements, facilities, and building needs to meet the organization’s training goals.
4-3: Performing Community Risk Assessment

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
   • Paragraph 7.4.3
2. Office of the State Fire Marshal

Given
1. The features of the service area of the organization

Requisite Knowledge and Skills
1. Identify risk, hazard, and value analysis methods
2. Define risk, hazard, and value analysis processes
3. Assess community development features of the service area of the organization
4. Analyze community demographics
5. Review assessed valuation of properties in the community
6. Apply risk management problem solving methods

Job Performance Requirements
1. Complete a written comprehensive risk, hazard, and value analysis of the community so that an accurate evaluation is made for service delivery decision making.
4-4: Developing a Capital Improvement Plan or Project

Authority
1. NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
   - Paragraph 7.4.4
2. Office of the State Fire Marshal

Given
1. An unmet or anticipated organizational need within the community

Requisite Knowledge and Skills
1. Identify the process of capital improvement planning
2. Determine budget for capital improvement
3. Apply project or program development problem solving methods
4. Develop a strategic plan for capital improvement projects or programs

Job Performance Requirements
1. Develop a plan for a capital improvement project or program to educate citizens about organizational needs.
Section 5: Emergency Services Delivery

5-1: Developing a Comprehensive Disaster Plan

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications (2014)
- Paragraph 7.6.1

Given
1. Risk, vulnerability, and capability data

Requisite Knowledge and Skills
1. Review major incident policies and procedures
2. Assess physical and geographic characteristics
3. Identify demographics
4. Identify target hazards
5. Review Incident Management Systems
6. Assess communications systems and their interoperability
7. Review intelligence data
8. Review contractual and mutual-aid agreements
9. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
10. Assess local, state/provincial, and federal resources
11. Perform inter-organizational planning and coordination
12. Develop a comprehensive disaster plan

Job Performance Requirements
1. Develop a comprehensive disaster plan that integrates other organizations’ resources so that the organization can rapidly and effectively mitigate the impact on a community.
5-2: Developing a Comprehensive Civil Disturbance Plan

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
- Paragraph 7.6.2

Given
1. Relevant community and organization data

Requisite Knowledge and Skills
1. Review major incident policies and procedures
2. Assess physical and geographic characteristics
3. Identify demographics
4. Review Incident Management Systems
5. Assess communications systems and their interoperability
6. Review contractual and mutual-aid agreements
7. Apply local, state/provincial, and federal laws, statutes, regulations, and ordinances
8. Assess local, state/provincial, and federal resources
9. Perform inter-organizational planning and coordination
10. Develop a disaster plan for civil disturbance

Job Performance Requirements
1. Develop a comprehensive plan for the organization to operate at a civil disturbance, integrate with other organizations’ actions, and provide for the safety and protection of members.
Section 6: Health and Safety

6-1: Developing a Comprehensive Risk Management Program

Authority
NFPA 1021 Standard for Fire Officer Professional Qualifications 2014
  • Paragraph 7.7.1

Given
1. Relevant organizational data

Requisite Knowledge and Skills
1. Identify risk management concepts
2. Analyze occupational hazards
3. Review retirement qualifications
4. Apply disability law, regulations, and procedures
5. Analyze data
6. Use evaluative methods

Job Performance Requirements
1. Maintain, develop, and provide leadership for a risk management program to reduce injuries and property damage accidents.
