The version dated September 17, 2007 of the map shows draft Very High Fire Hazard Severity Zones (VHFHSZ) within LRA, for review to the safety element of general plans to determine natural hazards disclosure requirements at time of property sale and new construction. Details on the project and specific modeling methodology can be obtained at [http://recentcenter.berkeley.edu/fhsz/](http://recentcenter.berkeley.edu/fhsz/).
