Is fire alarm cabling allowed to be installed exposed per Sections 760.52(B)(1) and 760.61(A), (B) and (C) of the 2007 CEC, provided a raceway system is not required by another code or standard, i.e., 2007 CFC Section 909.12.1 for smoke control system detection and control wiring?

Yes. Unless specifically required by other codes or standards.
