State Responsibility Area
Fire Hazard Severity Zones

November 21, 2022

Los Angeles County

Fire Hazard Severity Zones in State Responsibility Area (SRA)
- Very High: 461,184 Acres
- High: 17,013 Acres
- Moderate: 17,551 Acres

Fire Protection Responsibility Areas (non-SRA)
- Federal Responsibility Area (FRA)
- Local Responsibility Area (LRA)

Public Resources Code 4234-4241 requires the California Department of Forestry and Fire Protection (CAL FIRE) to map fire hazard within State Responsibility Areas (SRA) based on fuel loading, slope, fire weather, and other relevant factors present, including areas whereOutside the department as a major cause of wildfires spread. These zones, referred to as Fire Hazard Severity Zones (FHSZ), classify a wildland zone as Moderate, High, or Very High fire hazard based on the average hazard across the area included in the zone.

Neither the State nor the Department shall be liable under any circumstances for any direct, special, incidental, or consequential damages with respect to the use of this map or data.
