CAL FIRE
Office of the State Fire Marshal
Wildfire Mitigation Advisory Committee Meeting

July 19, 2022
Call to Order

Welcome!

If you have technical difficulties during this meeting, please contact Kara Garrett at (916) 201-5539 or Kara.Garrett@fire.ca.gov
Roll Call / Quorum Established

- The State Fire Marshal
  - Mike Richwine
- Department of Forestry and Fire Protection
  - Curtis Brown
- Department of Conservation
  - Kealiʻi Bright
- Office of Energy Infrastructure Safety
  - Caroline Thomas Jacobs or Sandy Cooney
- State Board of Forestry and Fire Protection
  - J. Lopez
- Governor’s Office of Emergency Services
  - Ryan Buras or Robert Troy
- California Department of Insurance
  - Deborah Halberstadt or Mike Peterson
- Governor’s Office of Planning and Research
  - Clay Kerchof
- California Fire Safe Council
  - Jessica Martinez

(Continued on Next Slide)
– Insurance Institute for Business & Home Safety
  • Roy Wright
– California Fire Chiefs Association
  • Dave Winnacker or Todd Lando
– California Building Industry Association
  • Christopher E. Ochoa or Nick Cammarota
– University of California Cooperative Extension
  • Lenya N. Quinn-Davidson
– California Fire Science Consortium
  • Yana Valachovic
– Department of Housing and Community Development
  • Maziar Movassaghi
– Rural County Representatives of California
  • Staci Heaton
– California Association of Resource Conservation Districts
  • Karen Buhr
– League of California Cities
  • Sean McGlynn
– California State Association of Counties
  • Ed Valenzuela or Catherine Freeman
– A representative from tribal government
  • Don Hankins
1. CALL TO ORDER 1:00 PM

A. Welcome

The meeting was called to order at 1:00 PM by Daniel Bertant.

B. Roll Call – Kara Garrett
Approval of Past Meeting Minutes – Motion Required

Quorum Established with seventeen committee members present, six of which attending virtually.

C. Approval of Past Meeting Minutes (Motion Required) – Daniel Bertant
   a. Caroline Thomas Jacobs mentioned two corrections to the May 17 meeting minutes. The two corrections are as follows: on page three, amending 6 – 2 to read “this workgroup is developing a utility risk model that will inform the other group.” Second amendment is on page seven to correct “utilize” to “utilities”.

   Motion: J. Lopez moved to accept the meeting agenda as amended.
   Action: Don Hamline seconded the motion.
   Action: All members voted to unanimously approve the motion.

D. Agenda Review (Motion Required) – Daniel Bertant

   Motion: Caroline Thomas Jacobs moved to accept the meeting agenda as amended. Curtis Brown seconded the motion.
   Action: All members voted to unanimously approve the motion.

2. OLD BUSINESS

   A. Risk Modeling
      i. Draft Charter Updates
         a. Please submit appointment letters if you have not already done so by June 24th.
         b. Current Draft is on the Wildfire Mitigation Advisory Committee Website at https://cdn.fire.ca.gov/boards-committees/wildfire-mitigation-advisory-committee/

   B. Division Reports
      i. Wildfire Risk Reduction Programs:
         a. Defensible Space Program:
            1. 80+ thousand DSpace inspections complete 17 thousand ahead of last year due to increased funding and permanent staffing.
         b. Home Hardening Program:
            1. New Home Hardening Assistant Chief Dennis O’Neil.
         c. Damage Inspection Program:
            1. First Damage Inspector Manager (DINM) class was taught June 1st.
            2. More classes to come in the near future.
         d. New Defensible Space Assistant Chief Heather McCullay.
         e. Burn Permit Program:
            1. Online burn permit application and web interface out to select Units for user acceptance testing. Plan to roll this out Jan 1, 2023. CAL FIRE has also partnered with the California Air Resources Board (CARB) on this.

      a. Question, J. Lopez Board of Forestry –
Approval of Past Meeting Minutes – Motion Required

i. Are these programs mentioned in the CAL FIRE Vegetation Treatment Program (VTP)?
   1. Potentially for the agency agriculture permits for other agencies, they used to apply for an LES and will now be known as an Agroy Ag Burn Permit, they may be using the VTP. If CAL FIRE is conducting the burn, we will be using the FC 400 process. The online burn permit is still in testing, but it will be a component in utilizing the VTP.

v. Utility Wildfire Mitigation Program:
   1. Completed Powerline Fire Prevention training with Defensible Space Inspectors (DSI) during the statewide DSI training. Idea being to cross-train them on how to spot and report powerline hazards related PRC 4259 (pole clearance) and PRC 4269 (conductor clearancy) during defensible space inspections.
   2. In coordination with the Investor-Owned Utilities (IOUs), the Powerline Fire Prevention Field Guide is being produced as a Pocket Guide. The Pocket Guide contains photographs of powerline equipment used by Utilities and CAL FIRE in identifying exempt and non-exempt equipment in the field. The document is at the print phase currently.
   3. Continue to assist the Office of Energy Infrastructure Safety with the 2022 Wildfire Mitigation Plan Reviews for the IOUs.

b. Wildfire Planning and Statistics Programs:
   i. Pre-Fire Planning Program:
      1. Fire Hazard Severity Zones (FHSZ) – FHSZ pilot unit and scientific review was completed in May. FRAP is making small changes to the model and some modifications to the model inputs. The statewide SRA map will be created by the end of June with an anticipated statewide unit review beginning July 12th. Units will have a month to complete this review.
      2. Completed Unit Fire Plans are being reviewed at the Region level.
      3. Development of the CalMAPPER mobile application continues.
   ii. California Incident Data and Statistics Program:
      1. CalStats staff have completed the draft of the 2021 Redbook. The Redbook will now go through the review and approval process before being posted on the department’s website.

a. Community Wildfire Mitigation Assistance Programs:
   i. Land Use Planning Program:
      i. Land Use Planning/Safety Elements:
         1. Still numerous Safety Element Assessments (SEA) moving forward statewide, two SEAs were presented at the June Board of Forestry and Fire Protection’s Resource Protection Committee meeting with several more likely to be presented in July.
         2. Working on filling some staffing vacancies in Sacramento.
      ii. Fire Safe Regulations:
Approval of Past Meeting Minutes – Motion Required

1. Look forward to seeing the process moving forward.

iii. Subdivision Review:
1. Numerous cities and counties in progress now, recent activity in San Diego County, amongst others, will be presented in the coming months.

iv. Firewise USA:
1. 325 communities in good standing, more than 250 in progress.
2. Staff are fielding lots of inquiries statewide.
3. Staff are engaged in numerous other ongoing activities including GSPM Statutes and Regulations class, OPR Best Practices Inventory, training for local planners, and FHIZ map update.

b. Wildfire Prevention Grants:
   i. On June 1st, we announced that 144 applications for nearly $118 million in Wildfire Prevention Grants have been awarded for Fiscal Year (FY) 2021/22.
   ii. The CAL FIRE Grants Management Unit will begin to work with the awardees to establish the grant agreements.

C. Fire Hazard Severity Zones
   a. Adoption Process:
      i. Peer Review (Scientific & Operational Pilots) - NOW
      ii. Unit / Contract County Review – July
      iii. Public Hearings in Each County – Fall
      iv. Adoption through Regulation – January 1, 2023
   v. Question: Roy Wright
      1. At this goes to public comment, the map areas of high hazard can only grow, does that mean that nothing can get smaller?
         a. Yes, local jurisdictions can expand the zones within Local Responsibility Area (LRA) that they determine to be an equal fire hazard. There will also be a validation period to allow local jurisdictions to make updates to the inputs based on changes to land use and vegetation type.
   2. On the State Responsibility Area (SRA) side, what changes can be made as a result of the public comment?
      a. The input data would be the most accurate and our assumption is that the public comments would be more narrative based versus something that would scientifically change the model.
   3. If someone proposed a scientific reason, will that change then be made?
      a. Unit field review would have already occurred in the SRA map. The SRA map will probably not have the same amount of change.
   v. Question: Caroline Thomas Jacobs
      1. If things go according to plan, the idea is that they would be effective January 1?
         a. Yes. That is the goal.
Approval of Past Meeting Minutes – Motion Required

1. Draft maps to be presented to local agency and receives local validation –
   Starting in Fall
2. Final draft submitted to governing body of the local agency
3. City / County has 30 days to set public comment and 120 to adopt through
   ordinance
4. Local jurisdiction can add area not identified by CAL FIRE

b. Timeline:
   i. Current maps were developed in 2007-2010
   ii. Over the past several years staff have been building the new science
      models
   iii. Fall 2022 – Adopt map in SRA into regulation.
   iv. Fall 2022 – Begin LRA remap
   v. Question – Ray Wright, under statute, what if political figures choose to not
      vote yes to adopt this?
      1. Recent legislation sets timelines in the Government Code for local
         agencies to adopt the maps and then provide a copy of their
         ordinance to the Board of Forestry and Fire Protection within 120
         days.
   vi. Question – Sean McClynn, is there a clock on the draft being sent out?
      1. Yes, the maps will have a phased roll out, but the plan is to provide
         a 30(ish) day validation period to the local agency.
      2. Sean raised workload concerns for local government and requested
         expanding communication when getting these out to get cities and
         counties.
   vii. Question – Don Hankins, what efforts will there be to engage tribal review
       for the zones?
      1. It is up to the cities and counties to adopt. CAL FIRE staff will work
         to schedule an opportunity to meet with Don and others to discuss
         communicating the maps with tribal entities.

3. NEW BUSINESS
   Daniel Bertant / Steve Hawks
   a. Wildfire Prevention Grants Program – Daniel Bertant / Steve Hawks
      
3.1. Funds fire prevention projects in and near fire threatened communities
      that focuses on increasing the protection of people, structures, and communities
      (Public Resources Code 4124.5)
   b. Benefit to defined “Low-Income” and “Disadvantaged Communities”
   c. Qualifying Project Types
      i. Hazardous Fuel Reduction
      ii. Wildfire Prevention Planning
      iii. Wildfire Prevention Education
   d. Eligible Entities
      i. State Agencies
      ii. Federal Agencies
      iii. Native American Tribes
      iv. Joint Powers Authority if entities involved are eligible applicants
      v. Local agencies, including:
         1. City, county, or city and county
         2. Fire protection district
Approval of Past Meeting Minutes – Motion Required

3. Community services districts
4. Water districts
5. Resource conservation districts
6. Special districts
   vi. Certified Community Conservation Corps
   vii. Fire Safe Councils and other nonprofit organizations with a 501(c)(3) designation

e. Grant Funding Availability
   i. FY 2020-21 $125 million + $14.8 million
   ii. FY 2021-22 $118 million
   iii. FY 2022-23 $115 million in Governor’s Proposed Budget
   iv. FY 2023-24 $117 million in Governor’s Proposed Budget
   v. Funding through FY 2028-29 ($165 million to CAL FIRE)

f. Grant Application Process
   i. Application
   ii. Scope of Work
   iii. Budget Sheet
   iv. Articles of Incorporation (A01)
   v. Board Resolution
   vi. Various state forms
   vii. Mapping component using online Esri webmap

g. Open Solicitation process is 2 months

h. Review, Announcement, and Agreement Process
   i. Grants Management Unit: 2 weeks
   ii. Units/Contract Counties: 4 weeks
   iii. Region: 4 weeks
   iv. Sacramento: 1 week
   v. Executive Review: 1 day
   vi. Award Announcement: June 1, 2022
   vii. Grant Agreements: 4 months

1. Question – Caroline Thomas Jacobs, what is the marketing campaign to get it out to all of the constituents?
   1. CAL FIRE hosts workshops, at least two meetings that are open to the public and also do a media release through the department and the CA fire safe council puts it on their website. We also have an email distribution list through the CAL FIRE website that you can sign up for at https://www.fire.ca.gov/grants and specifically at https://www.fire.ca.gov/subscribe?u=1eac9f5c150a66e638254545c6d-c330d5050a

i. Review, Announcement, and Agreement Process
   i. Align with CAL FIRE Unit/Contract County Fire Plans
   ii. Coordination with other grant opportunities through
      1. California Fire Safe Council Grants
      2. Cal OES FEMA Hazard Mitigation Grant Program
      3. Housing and Community Development Federal HUD Grants
Approval of Past Meeting Minutes – Motion Required

4. Others?
   iii. Contact us at FPGSgrants@fire.ca.gov
   1. Northern Region FPGSgrants@fire.ca.gov
   2. Southern Region SouthernRegionGrants@fire.ca.gov

1. Question – Robert Troy, what is our definition of disadvantaged communities?
   i. It is CARs that defines that for us. There is mapping available to see where you are for this.

2. Question – Catherine Freeman, for the people who are not making the cut, how do you work with them and help them?
   In the past CAL FIRE has worked with organizations that do not qualify but there are opportunities for them to partner with
   the other organizations that did qualify. Find the groups that are doing work in their local area and ask for help. We also
   look at how it ties to the local fire plan. If a stakeholder shows that they are already working with the unit, it is likely that the
   project will rank higher.

B. IBHS Wildfire Prepared Home Presentation – Rory Wright / Anne Cope
   An overview of the new IBHS Prepared Home was presented.

C. CDI Safer from Wildfires Presentation – Deborah Halberstadt
   An overview of the Department of Insurance’s Safer from Wildfires Program was
   presented.

4. ROUNDTABLE
   a. There is a list of upcoming presentations for upcoming meetings.
      i. Wildfire and Forest Resilience Task Force Update
      ii. BOF 0-5-foot Zone 0 Regulations
      iii. Department of Conservation’s Regional Forest and Fire Capacity Program
      iv. CAL FIRE/CalOES Home Hardening Retrofit Financial Assistance Program
      v. Utility Wildfire Mitigation Plans – Caroline Thomas Jacobs Energy Safety (Possibly August)

   Topic Suggestions for Next Meetings –
   Link to Google Forms Suggestion Portal: https://forms.gle/WedqTynmUQcYS3pa9

5. PUBLIC COMMENT
   a. No public comment.

6. UPCOMING MEETING DATES FOR 2022
   a. Third Tuesday of each month starting at 1 PM and ending at 3 PM.
   b. Next meeting is July 19, 2022 in this room.

7. MEETING ADJOURNED 2:59 PM
WILDFIRE MITIGATION ADVISORY COMMITTEE MEETING
Meeting Agenda – Tuesday, July 19, 2022, 1:00 PM – 3:00 PM
Period July 8, 2022

Location:
CNRA Building, 715 P Street, 2nd Floor Conference Room 2-221
Sacramento, CA 95814

Zoom Meeting Information –
Please click the link below to join the webinar:
https://us06web.zoom.us/j/85192434967?pwd=dHJzcVhVUTFmT21mMzJYY3k3QT09
Passcode: 462073

Committee Member Locations (Virtual):
- Roy Wright – Insurance Institute for Business & Home Safety
  o 5335 Richburg Road, Richburg, SC 29770
- Deborah Halberstadt – California Department of Insurance
  o 2721 Javelin Place, Davis CA 95616

1. CALL TO ORDER
   A. Welcome
   B. Roll Call/Quorum Established
   C. Approval of Past Meeting Minutes (Motion Required)
   D. Agenda Review (Motion Required)

2. OLD BUSINESS
   A. Risk Modeling
   1) Work Group Update
   B. Division Report

3. NEW BUSINESS
   A. CAL FIRE / CalOES Presentation on the California Wildfire Mitigation Program
   B. Department of Conservation Presentation on the Regional Forest and Fire Capacity Program

4. ROUNDTABLE
   Mike Richwine

5. PUBLIC COMMENT
6. UPCOMING MEETING DATES FOR 2022
   A. Third Tuesday of each month starting at 1 PM and ending at 5 PM.
   B. Next meeting is August 16, 2022

7. MEETING ADJOURNMENT (Motion Required)
   Mike Richwine
Risk Modeling Advisory Workgroup Update

- All members have been alerted and welcomed to the group via email.
- Pending one more nomination and appointment.
- Planning on meeting for the first time in August.
- During the first meeting the group will finalize the draft charter for review.
## Risk Modeling Advisory Workgroup Update

Division Report

Community Wildfire Preparedness and Mitigation

- Wildfire Planning and Risk Reduction
  - Wildfire Risk Reduction
  - Wildfire Planning and Statistics

- Community Assistance
  - Land Use Planning
  - Wildfire Prevention Grants
Wildfire Preparedness Update

- **Defensible Space:**
  - 2022 to-date we have completed more than 86,000 Defensible Space inspections. This is up by more than 15,000 for the same timeframe last year.
  - Delivery of the statewide defensible space curriculum will continue in 2023. The feedback from our pilot classes was positive. Dates will be published soon to begin filling classes for 2023.
  - More counties are interested in completing AB 38 inspections in their jurisdictions. We are encouraging them to complete the Defensible Space inspections and share the data as well. This will allow us to get more inspection information in our Database and let our inspectors work in other areas that are needed.
  - AB 38 inspections survey shows positive reviews of the program. Inspectors strive to meet the demand from the real estate industry across the State, but the Units are having trouble filling all allocated positions due to living wage challenges.
Wildfire Preparedness Update

- Home Hardening:
  
  • CAL FIRE kicked off its Joint Powers Authority with the California Governor’s Office of Emergency Services (Cal OES) to provide governance for a home hardening retrofit financial assistance program, known as the California Wildfire Mitigation Program.

  • The Program has developed a statewide home hardening initiative to retrofit, harden, and create defensible space for homes at high risk to wildfires, focusing on high socially-vulnerable communities and providing financial assistance for low- and moderate-income households.
Wildfire Preparedness Update

- **Damage Inspection:**
  - 33 single family residences destroyed and 16 damaged so far in 2022.
  - 5 DINS classes and 1 DINM course have been delivered.
  - 3 DINS and 1 DINM class are scheduled for 2023 but more are likely to be requested.

- **Burn Permits:**
  - The Burn Permit application testing has begun.
  - We have 15 participants from the field helping our team to find any potential issues in the system. We have started with the web facing application first. This includes, creating the burn permit request, then an approved/Denied email is sent to the requestor.
  - This feedback from the field personnel will allow our team to find any missing dialogue or content.
Division Report

Utility Wildfire Mitigation Update

- Continue to assist the Office of Energy Infrastructure Safety (OEIS) in the review of the 2022 Wildfire Mitigation Plans reviews for the Investor-Owned Utilities.

- Updates include:
  - 5/19 Draft Decision was released for public comment for SDGE.
  - 5/26 Revision notice Issued for PG&E’s WMP for 13 critical issues, must submit revised WMP 30-60 days.
  - 6/2 Draft Decision was released for public comment for SCE.
  - 6/15 Rejection of Liberty and Pacificorp’s 2022 WMP for incompleteness, must resubmit in 30 days.
  - Continued review of Bear Valley and Independent Transmission Operators WMP’s.

(Continued on Next Slide)
Utility Wildfire Mitigation Update

- Work continues on the evaluation of several types of electrical equipment requesting exemptions from Public Resources Code (PRC) 4292, pole clearance.

- Participating in IOU PSPS Exercises in preparation for any 2022 PSPS events.
Wildfire Planning and Statistics Update

- Pre-Fire Planning

  • Fire Hazard Severity Zones – Pilot unit and scientific review was completed in May. FRAP is making small changes to the model and some modifications to the model inputs. The draft statewide SRA map has been created and will be released on August 1st to begin the CAL FIRE Unit and Contract County review process. The CAL FIRE Units and Contract Counties will have until September 2nd to complete the review process.

  • Region has completed the Unit Fire Plan review and the plans are now with the Pre-Fire Planning program for final review before posting our internet website.

  • Development of the CalMAPPER mobile application continues.
Division Report

Wildfire Planning and Statistics Update

- California Incident Data & Statistics

  • CalStats staff have completed the draft of the 2021 Redbook.

  • The Redbook will now go through the review and approval process before being posted on the department’s website.

  • Mike Morlan started in his new position as Deputy of the CalStats program on July 11th.
Division Report

Land Use Planning Update

- **Land Use Planning/ Safety Elements:**
  - Still numerous Safety Element Assessments (SEA) moving forward statewide, numerous SEAs likely to be presented at July meeting.
  - Working on filling some staffing vacancies in Sacramento.

- **Fire Safe Regulations:**
  - Look forward to see the process moving forward.
  - Program staff assisting Board staff with public comments.

(Continued on Next Slide)
Land Use Planning Update

- **Subdivision Review:**
  - Numerous Cities and Counties in the review progress now.

- **Firewise USA:**
  - 529 communities in good standing, more than 250 in progress.
  - Staff are fielding lots of inquiries statewide.

Staff are engaged in numerous other ongoing activities including: OSFM Statutes and Regulations Class, OPR Best Practices Inventory, Training for Local Planners and Fire Hazard Severity Zones.
Wildfire Prevention Grants Update

- The CAL FIRE Grants Management Unit continues to work with successful grantees from the June 1st announcement to execute the grant agreements.

- GMU will begin to work with the awardees to establish the grant agreements.

- Next grant solicitation period timeline is being worked on and it anticipated to open in September or October.
California Wildfire Mitigation Program

Home Hardening Initiative

Wildfire Advisory Committee Public Meeting

July 19, 2022
Program Vision

Develop a robust program model that empowers and enables California communities to create successful wildfire home hardening programs
Community hardening approach
Targeting low income and socially vulnerable homeowners
Locally-led programs with state support
Program Framework

- Program Implementation Guidance and Doctrine
  - Local Implementation Development and Process Guidance
  - Home Hardening Treatment Measures

- Local Project Management System
  - Application Intake to Closeout

- Outreach Toolkit
  - Internal and External Products

- Homeowner Application
  - Paper; Online Portal; English + Spanish

- Home Assessment Mobile App
  - Outputs property specific treatments actions

- Home Hardening HMGP Subapplication Guide
  - Simplified Guidance and Plug and Play Format
Defensible Space

Compliant defensible space will be completed prior to retrofit actions in zones 1 and 2

Local ordinances for defensible space requirements will be part of the program

0–5-foot zone: Best management practices (awaiting Board of Forestry regulation) or local ordinances

- Flammable vegetation
- Combustibles
- Attachments to the structure (fences, retaining walls)
Retrofits

Retrofit guide being developed cooperatively with CAL FIRE, NIST, IBHS, and subject matter experts

Hardening for embers and flame (includes, direct flame impingement and radiant, convective and conductive heat)

- Retrofits account for high, medium and low-density communities
- Retrofits to align with current Chapter 7A and additional recommendations beyond Chapter 7A
Wildland-Urban Intermix (low to medium density)

Primary objective is to harden for embers

- Replace wood shingle roofs
- Upgrade roof and crawl space vents
- Install double-pane windows
- Move or harden auxiliary buildings or structures and other combustible items
Wildland-Urban Intermix (high density)

Primary objective is to harden for direct flame
Ember hardening required

Additional hardening actions to residence

- Metal window screens
- Replace windows (both panes tempered glass)
- Replace siding
- Wood fences and connections to residences
- Harden auxiliary buildings or structures and other combustible items.
To achieve mitigation benefits, we must encourage participation of as many homeowners in the demonstration areas as possible. A sliding scale will allow all homeowners in target neighborhoods to participate to achieve maximum resiliency benefits without allocating substantial state funds to non-LMI participants. Participation limits ensure lower income neighborhoods are prioritized.

Cost Scale by Income Bracket
This table shows the distribution and source of funding based on household income.

*AMI – Area Median Income
Demonstration Community Selection

State-wide analysis at the parcel and census-tract level using data on fire risk, climate change risk factors, and social vulnerability. Only considered census tracts in the Fire Hazard Severity Zones. Project areas within these counties were selected with input of local representatives based on local expertise but were required to be areas that are at high risk for wildfire, and with high proportions of socially vulnerable residents. Prioritized pilot locations that ranged in physical and social characteristics to ensure that the program would be flexible for implementation in diverse communities:

- Vegetation type
- Housing density
- Region
- Type of implementing entity
- Inputs required for the Benefit Costs Analysis for HMGP, such as home values, replacement costs, and burn recurrence intervals.

Demonstration community

Expansion communities

All selected communities are Low-to-Moderate Income and are in High or Very High Fire Hazard Severity Zones
San Diego County
(Demonstration Site: Dulzura)

- Local Lead: San Diego County - SD Fire Protection District
- Total project cost: $23.5M ($5.9M state share)
- Year 1 Goal: 10-25 homes
  - 18 homeowner applications received
  - 9 home assessments completed
- Expansion areas: Campo and Potrero
- Status: Conducting EHP surveys for NEPA review prior to FEMA obligation of funds
All selected communities are Low-to-Moderate Income and are in High or Very High Fire Hazard Severity Zones.
Shasta County
(Demonstration Site: Whitmore)

• Local Lead: Shasta County Fire Safe Council (in partnership with the Western Shasta Resource Conservation District)

• Total project cost: $23.5M ($5.9M state share)

• Year 1 Goal: 10-25 homes
  • 37 homeowner applications received
  • 24 home assessments completed

• Expansion areas: Lakehead and Oak Run

• Status: Conducting EHP surveys for NEPA review prior to FEMA obligation of funds
Demonstration community

All selected communities are Low-to-Moderate Income and are in High or Very High Fire Hazard Severity Zones
Lake County
(Demonstration Site: Kelseyville Riviera)

- Local Lead: North Coast Opportunities (with strong partnership from Lake County Board of Supervisors)
- Total project cost: $22.2M ($5.5M state share)
- Year 1 Goal: 10-25 homes
- Capturing an interested homeowners list; will open applications closer to FEMA approval date.
  - 28 homeowners on contact list for launch
- Status: Conducting EHP surveys for NEPA review prior to FEMA obligation of funds
Questions/Comments
Regional Forest and Fire Capacity Program

Keali‘i Bright
Division Director
Division of Land Resource Protection
(916) 324-0850
Kealii.Bright@conservation.ca.gov
GOAL - Build high-capacity partners to:

✓ Develop partner networks
✓ Build local partner capacity
✓ Plan coordinated forest and fire priorities
✓ Develop projects for implementation
✓ Lead coordination and implementation
✓ Develop single-point regional partners
What do RFFC grants fund?

✓ Capacity
✓ Priority Project Planning
✓ Project Development
✓ Demonstration Project
Program Activities Since 2019:

✓ $66M of funding awarded
✓ 10 regional block grants awarded
✓ 3 statewide grants
✓ 3rd round guidelines will be released July 22nd
Organization

Task Force Region  RFFC Block Grant  Sub Grantee
RFFC Grantees Serving Multiple Agencies

Regional Forest and Fire Capacity Program

Grantees, Plans and projects

Local Municipalities/Initiatives/Utilities

Federal Emergency Management Agency

US Forest Service

CAL FIRE Forest Health Program

CAL FIRE Fire Prevention Program

Department of Water Resources

Wildlife Conservation Board

Local/State/Federal Alignment
What’s Next

- Expanded program reach
- Regional priority plan completion
- Partner agency implementation block grants
- Increased DOC grant management capacity
- Alignment with new task force directives, data, and tools
- Continued watershed integration
• In 2021, One Tam completed the County’s first comprehensive fine scale vegetation map (more info).

• The fine scale map provides us with a comprehensive dataset that can be analyzed to understand the composition and distribution of forested areas across the landscape – the map identifies 34 different forest communities in Marin County.

• Beyond locating forest stands and describing their floristic composition, we have enhanced the vegetation map with other detailed information, such as presence of mortality in the tree canopy.

• Using lidar analysis we are also performing work to understand more about the structural dynamics of stands in the veg map, which is a powerful tool for assessing conditions at landscape scale.

• By combining this information with other data such as fire history, we developed a comprehensive suite of metrics that allows managers to assess forest health at a broad landscape scale.
APPROACH TO IDENTIFYING PRIORITY TREATMENT AREAS

• Use the Marin countywide fine scale vegetation map as the basic unit of analysis

• Develop mapping of disease-impacts and other dynamics such as open canopy oak woodland at risk of conversion to Douglas fir in the absence of a natural fire regime.

• Synthesize these and other conditions metrics into a countywide “restoration potential” index for forest and woodlands

• Classified restoration potential provides the opportunity to identify multi-benefit treatment areas that intersect with other values such as cultural landscapes, natural resources, and water storage/delivery infrastructure.
INTEGRATING WILDFIRE HAZARD AND COMMUNITIES

- Develop an up-to-date Wildfire Hazard Index for Marin County using best available data from 2020 Marin CWPP, lidar, and statewide datasets
- Integrate building density and WUI layers
- Combine restoration potential with wildfire hazard and building density data to map multi-benefit forest health and community protection project opportunities
- Summarize results in forest health strategy
**Marin County Coordination:**
**One Tam + Marin Fire Prevention Authority**

**Marin Fire Prevention Authority**
- Defensible Space
- Home Hardening
- Evacuation Routes
- Hazardous fuels reduction in the WUI
- Fire prevention + detection

**One Tam**
- Forest resiliency/health treatments in wildland areas
- Biodiversity/Resource driven approach to treatments with secondary benefits to fuels reduction where applicable
- Focus on monitoring, science/research, and stewardship

**Shared Interests**
- Increased capacity to support pile burning, broadcast/prescribed fire.
- Designing hazardous fuels reduction treatments in the WUI to be ecologically neutral or beneficial
- Compliance approaches for MWPA-initiated treatments on public lands
- Community engagement, education, and outreach
- Increase Tribal engagement, input, and cultural approaches to treatment including cultural burning.
- Biomass management innovations
- Grants/funding
COLLABORATION FRAMEWORK

ONE TAM (130,000 acres in Marin County)

- Golden Gate National Parks Conservancy
- Marin County Parks (formerly "Open Space District")
- Marin Municipal Water District (Marin Water)
- California State Parks - Bay Area District (CDPR)
- Other Marin Fire Protection Districts (Tiburon, Belvedere)

Marin Wildfire Prevention Authority (MWPA)

- Bolinas Fire District
- City of Larkspur
- City of Mill Valley
- City of San Rafael
- County of Marin Fire
- Inverness Fire District
- Kentfield Fire District
- Marinwood Community Services District
- Muir Beach Community Services District
- Novato Fire District
- Sleepy Hollow Fire District
- Southern Marin Fire District
- Stinson Beach Fire District
- Town of Corte Madera
- Town of Fairfax
- Town of Ross
- Town of San Anselmo

2020 Community Wildfire Protection Plan (CWPP)

Annual MWPA Work Plan

- Forest Health Working Group
- Advisory Technical Committee

- Forest health + revitalization, Multi-benefit fuels reduction + forest restoration, projects
- Defensible space, fuel breaks, fuel reduction, evacuation route projects
THANK YOU

Kealiʻi Bright

Roundtable / Public Comment

• Roundtable
  • Topic Suggestions for Next Meetings
    https://forms.gle/Wefg6YnrrnUGYS8ua9

• Public Comment
The Committee shall meet on the third Tuesday of each month from 1:00 PM – 3:00 PM.

- Aug 16, 2022 – Same Location
  - Featuring presentations from:
    - Office of Energy Infrastructure Safety – Utility Wildfire Mitigation Plans
    - Office of the State Fire Marshal – SB 190 Model Defensible Space Program
- Sep 20, 2022
- Oct 18, 2022
- Nov 15, 2022
- Dec 20, 2022
- Jan 17, 2023
Meeting Adjournment (Motion Required)

- Copies of the written materials have been posted on the Office of the State Fire Marshal web site at https://osfm.fire.ca.gov/.

- For information concerning the Advisory Committee Meeting, please contact Kara Garrett at (916) 201-5539 or Kara.Garrett@fire.ca.gov.

- NOTE: Items designated for information are appropriate for committee action if the committee chooses to act. The agenda order is tentative and subject to change. Agenda items may be taken out of order to facilitate the effective transaction of business. The Committee may not discuss or act on any matter raised during the public forum period, except to decide whether to place the matter on the notice and agenda of a future committee meeting.

- Any written reports being provided to the committee members in advance of the public meeting will also be available to the public upon request.

- This committee meeting will be accessible via live audio webcast. Public comments on agenda items will be accepted via text sent through the webcast chat interface as well as via audio for those participating by phone and teleconference platform. Those wishing to provide public comment are not required to provide their name and/or e-mail in order to do so. Please mute your microphones when you are not speaking.

- In accordance with Title II of the Americans with Disabilities Act of 1990, reasonable accommodations are available. Request for reasonable accommodations should be made at least five (5) working days prior to the meeting date. To request reasonable accommodations, including documents in alternative formats, please contact Kara Garrett at (916) 201-5539 or Kara.Garrett@fire.ca.gov.
