State Responsibility Area
Fire Hazard Severity Zones

June 15, 2023

Public Resources Code 4201-4204 directs the California Department of Forestry and Fire Protection (CAL FIRE) to map fire hazard within State Responsibility Areas (SRA) based on fuel loading, slope, fire weather, and other relevant factors present, including areas where winds have been identified by the department as a major cause of wildfire spread. These zones, referred to as Fire Hazard Severity Zones (FHSZ), classify a wildland zone as Moderate, High, or Very High fire hazard based on the average hazard across the area included in the zone.

Obtain FRAP maps, data, metadata, and publications at https://frap.fire.ca.gov. For more information, please call 916-633-7655 or email FHSZcomments@fire.ca.gov.

The State of California and the Department of Forestry and Fire Protection make no representations or warranties regarding the accuracy of data or maps. Neither the State nor the Department shall be liable under any circumstances for any direct, special, incidental, or consequential damages with respect to any claim by any user or third party on account of, or arising from, the use of data or maps.

Gavin Newsom, Governor, State of California
Wade Crowfoot, Secretary for Natural Resources,
California Natural Resources Agency
Daniel Berlant, Acting State Fire Marshal,
California Department of Forestry and Fire Protection

Projection: NAD 83 California Teale Albers
Scale: 1:81,000 at 36" x 48"
