State Responsibility Area
Fire Hazard Severity Zones

San Diego County

November 21, 2022

Public Resources Code 4201-4204 directs the California Department of Forestry and Fire Protection (CAL FIRE) to map fire hazard within State Responsibility Areas (SRA) based on fuel loading, slope, fire weather, and other relevant factors present. These areas are identified by the department as a major cause of wildfire spread. These areas are classified as Fire Hazard Severity Zones (FHSZ), which are divided into Very High, High, or Moderate, based on the average hazard across the area included in the zone.
